MEMORANDUM

To: Distribution List
From: Cindy Rives *Cindy Rives*
Undersecretary
Date: March 6, 2019
Subject: SFY 2018/19 Medicaid Monthly Forecast Report – February, 2019

Attached, please find the Medicaid Forecast Report for February, 2019. This report includes actual revenue and expenditure data through February 28, 2019 and trends expenditures forward through June 30, 2019. Current Means of Financing projections reflects an under collection in two Statutory Dedicated Funds and Federal Participation. The Statutory Dedications are lower than estimated for the following reasons: MATF-MCO Premium Taxes are projected to be \$11.1M lower due to enrollment for the expansion population being less than budgeted and Hospital Stabilization Fund-Hospital Assessment per HCR6 is \$4.3M lower due to updating projections to actual anticipated revenue.

Included in the report is the recipient enrollment numbers which can also be accessed via the department's web site at <http://ldh.la.gov/index.cfm/page/1275>. Through October 2018, the data for the published enrollment trend reports came from the LDH legacy system MEDS and counted monthly enrollment on a point in time basis (e.g., for October, the number of people enrolled on 10/31). Effective November 2018, the data from the reports comes from the new LDH system, LaMEDS and counts recipients that were enrolled at any point during the reporting period.

This report projects expenditures through the state fiscal year which ends on June 30th. However, the Medicaid program, which is funded by the federal government, operates on a federal fiscal year which ends on October 30th. Excess federal budget authority is used by the department to reconcile the 4th quarter of the federal fiscal year.
