## IV. Horizon Issues Not Contained in 5-Year Plan

The Hurricane and Storm Damage Risk Reduction System (HSDRRS) Projects were completed May 2022. At that time, the State's share of the total cost was \$1.19 billion, and in addition, the State faced accrued construction interest in excess of \$600 million. Federal legislation passed in December 2020 and December 2022, provides an option to forgive the accrued construction interest if the State makes specified required payments by September 30, 2021 and by September 30, 2023, which was achieved through payments totaling \$800 million and approved crediting of other projects totaling \$110 million.

The State must pay the remaining principal by June 1, 2032. According to the U.S. Army Corps of Engineers, as of September 27, 2023, the State's remaining share of the total costs of the HSDRRS is \$240 million. However, additional crediting is under review by the Corp, which will further reduce the remaining amount owed.

**I. SUMMARY/COMMENTS**

The purpose of this BA-7 request is to increase Federal budget authority by \$231,336 in the Louisiana Department of Agriculture and Forestry (LDAF) within the Animal Health and Food Safety Program. The source of funds is the State Administrative Expenses (SAE) Reallocation Funds for Child Nutrition grant from the U.S. Department of Agriculture (USDA) - Food and Nutrition Service. The purpose of the grant is to provide each state agency with funds for administrative expenses incurred from supervising and giving technical assistance to local schools in their conduct of child nutrition programs. The grant period is 10/01/2023 through 9/30/2025. The SAE plan was approved in March 2024 including the addition of SAE Reallocation Funds. The extra funds were inadvertently not added in the FY 25 appropriations process.

Expenditures for this BA-7 are as follows:

**Other Charges- \$231,336**

The BA-7 will increase Other Charges expenditure authority in order for LDAF to make two large, one-time purchases used for food distribution in Baton Rouge: (1) \$136,525 to replace a Freightliner truck; and (2) \$94,811 for a refrigerated reefer trailer. The existing truck performing this task is 18 years old and the cost of repairs has risen. Additionally, the reefer trailer has reached the end of its useful life span of 25 years and the costs to repair hinges and side panels exceed the value of the trailer.

**II. IMPACT ON FUTURE FISCAL YEARS**

Approval of this BA-7 request will have no impact on future fiscal years.

**III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION**

The Legislative Fiscal Office recommends approval of this BA-7 request.

**I. SUMMARY/COMMENTS**

The purpose of this BA-7 request is to increase budget authority by \$14.7 M in Statutory Dedications out of the LA Fortify Homes Program Fund to award financial grants to homeowners through the LA Fortify Homes Program. The original source of the funding is SGF transferred into the LA Fortify Homes Program Fund.

The LA Fortify Homes Program (LFHP) was created by Act 554 of the 2022 Regular Session and made a permanent program by Act 8 of the 2024 Regular Session. The goal of the program is to increase the number of "FORTIFIED Roof™" designations from the Insurance Institute for Business and Home Safety (IBHS) throughout the state. Through the LFHP, the LA Department of Insurance (LDI) makes financial grants to homeowners to retrofit roofs of insurable properties so that losses due to hurricanes, tornadoes, or other catastrophic windstorm events are mitigated.

In FY 24, LFHP was appropriated \$30 M and had total expenditures of \$10,332,628. For FY 25, LDI was appropriated \$20 M for the LFHP. Act 723 of the 2024 Regular Session transferred an additional \$15 M of SGF into the statutorily dedicated Fortify Homes Program Fund. Therefore, at the beginning of FY 25, the fund had an unappropriated fund balance of \$14.7 M, which includes interest earnings of \$41,793. See the table below.

**Fortify Home Program Fund Balance and Expenditures**

	<b>FUND BALANCE</b>
FY 24 (Act 410 of 2023 RS)	\$30 M
FY 24 Expenditures	<u>(\$10.3 M)</u>
Remaining Fund Balance	\$19.7 M
FY 25 (Act 723 of 2024 RS)	<u>\$15 M</u>
Available Fund Balance FY 25	\$34.7 M
FY 25 Appropriated (Act 4 of 2024 RS)	<u>(\$20 M)</u>
Unappropriated Fund Balance	\$14.7 M

In FY 24, LDI conducted four rounds of LFHP grant applications. LDI accepted applications in batches of 300 on a first-come first-serve basis. LDI awarded grants to 1,430 homeowners through the LFHP, of which 1,426 homeowners have completed the process and payments have been issued to the respective contractors. Total LFHP expenditures were \$10,332,628 and the average financial grant was \$9,869.

LDI conducted a fifth grant round from 9/18/24 to 9/20/24. This grant round was opened only to residents of the Coastal Zone, which includes all or part of the following parishes: Ascension, Assumption, Calcasieu, Cameron, Iberia, Jefferson, Lafourche, Livingston, Orleans, Plaquemines, St. Bernard, St. Charles, St. James, St. John the Baptist, St. Martin, St. Mary, St. Tammany, Tangipahoa, Terrebonne and Vermilion.

While the four previous grant rounds operated on a first-come first-served basis, this latest round utilized a lottery system. Homeowners must have registered online using the website portal ([www.lidi.la.gov/fortifyhomes](http://www.lidi.la.gov/fortifyhomes)) to participate in the lottery.

**LEGISLATIVE FISCAL OFFICE  
ANALYSIS OF BA-7 REQUEST**

Once the lottery period closed, the LFHP randomly selected 600 homeowners from the pool of 12,000 eligible registrants using an IT software program, and an additional 400 homeowners were randomly selected and placed on a wait list. All homeowners received e-mail notifications whether they were selected, wait listed, or not selected.

**LA Fortify Home Program (LFHP) Grant Rounds**

	<b>Date(s)</b>	<b>Grants Awarded</b>	<b>Expenditures</b>
Round 1	10/2/23	274	\$2,732,029

With this BA-7 request, LDI is requesting to appropriate the \$14.7 M fund balance for additional grant awards and grant rounds of the LFHP in FY 25. Expenditures for this BA-7 request are as follows:

**Other Charges - \$14,667,372**

The LFHP will provide financial grants of up to \$10,000 for homeowners to upgrade their roofs to the standard of FORTIFIED Roof™ as designated by IBHS. To qualify for the program, homes must be primary residences with a homestead exemption on the property and have an active residential insurance policy with wind coverage and flood insurance policy if required. New construction homes, condominiums, and mobile homes do not qualify for the program. Currently, there is no income limit for the program.

Before becoming eligible for the LFHP, homes must be in good repair as determined by a FORTIFIED™ Evaluator. Homeowners are responsible for paying the evaluation fee, typically between \$500 - \$750. In addition, homeowners must pay all the permits required by local ordinances. All roofing work must be completed by a FORTIFIED™ Contractor. The grant award is distributed directly to contractors once an IBHS fortified certificate has been issued for the home. Grant funding is only for construction costs. Any costs above the grant award are the responsibility of the homeowners.

With this additional funding, LDI may expand the number of grants awarded in the fifth round or conduct a sixth round and maybe a seventh round in FY 25. Presently, LDI is considering focusing the sixth grant round on low-to-moderate-income homeowners in December 2024.

**I. SUMMARY/COMMENTS**

The purpose of this BA-7 request is to increase Federal budget authority by \$4 M in Other Requirements, Agriculture and Forestry - Pass Through Funds. The source of funds is a Federal grant for the Local Food Purchase Assistance Cooperative Agreement from Agricultural Marketing Services within the U.S. Department of Agriculture. The grant period is 7/01/2022 through 6/30/2025 and requires no state match. The purpose of the grant is to maintain and improve food and agricultural supply chain resiliency.

Initially, the grant award was for \$6.9 M over two years. In April 2023, the grant period was extended by an additional year through the end of FY 25 and the grant award was increased by an additional \$6.4 M for a total of \$13.3 M. The LA Department of Agriculture and Forestry (LDAF) will use existing Federal budget authority to cover \$2.4 M of expenditure need; therefore, although the grant award is \$6.4 M, only \$4 M is requested in this BA-7 (\$6.4 M grant budget authority - \$2.4 existing budget authority). The department anticipates utilizing these funds in FY 25 and does not anticipate needing further budget authority in FY 26 and beyond.

Expenditures for this BA-7 are as follows:

**Other Charges - \$4 M**

Purchase Local and Regional Food - During FY 25, total grant funds of \$6.4 M will be passed through to Feeding Louisiana, the state food bank association to purchase locally grown food such as fruit, vegetables, rice, eggs, meat, and seafood. LDAF has a goal to purchase at least 40% of the food from socially disadvantaged farmers and specialty crop farmers.

Through the Nourishing Louisiana: Supporting Farmers, Families, and Local Food Systems program, LDAF partners with Feeding Louisiana to support the collaborative efforts of the state's five regional food banks - located in Alexandria, Baton Rouge, Monroe, New Orleans, and Shreveport. Through this partnership, LDAF will purchase 1.8 M pounds of fresh locally grown food over the 3-year grant period. The food will be distributed by the five food banks and 315 food pantries across the state to under served communities and serve 130,000 people.

**II. IMPACT ON FUTURE FISCAL YEARS**

Approval of this BA-7 request will have no impact on future fiscal years.

**III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION**

The Legislative Fiscal Office recommends approval of this BA-7 request.

Policy and Procedure Memorandum No. 52, Revised, requires that all Requests for Changes in Appropriation be fully documented. At a minimum, the following questions and statements must be answered. Use Continuation Sheets as needed. **FAILURE TO ANSWER ALL QUESTIONS COMPLETELY WILL BE CAUSE TO RETURN THIS DOCUMENT WITHOUT ACTION.**

1. What is the source of funding (if other than General Fund (Direct))? Specifically identify any grant or public law and the purposes of the funds, if applicable. A copy of any grant application and the notice of approved grant or appropriation must accompany the BA-7. What are the expenditure restrictions of the funds?

The source of the funding is the State Administrative Expenses Federal Grant awarded to Animal Health and Food Safety from the U.S. Department of Agriculture (USDA). Overall, the purpose of this grant is to implement strategies to reduce disparities and increase equity in regional center services.

2. Enter the financial impact of the requested adjustment for the next four fiscal years.

**PERFORMANCE IMPACT OF MID-YEAR BUDGET ADJUSTMENT**

1. Identify and explain the programmatic impacts (positive or negative) that will result from the approval of this BA-7.

Approval will allow LDAF to distribute food commodities as necessary and efficiently which will continue to reduce disparities and increase equity in regional center services as required in our overall mission of this program.

2. Complete the following information for each objective and related performance indicators that will be affected by this request. *(Note: Requested adjustments may involve revisions to existing objectives and performance indicators or creation of new objectives and performance indicators. Repeat this portion of the request form as often as necessary.)*

OBJECTIVE:				
LEVEL	PERFORMANCE INDICATOR NAME	PERFORMANCE STANDARD		
		CURRENT FY 2024-2025	ADJUSTMENT (+) OR (-)	REVISED FY 2024-2025

GUIDANCE**

**INSTRUCTIONS AND PROCEDURES**

**FISCAL YEAR 2024**

**FOOD AND NUTRITION SERVICE (FNS)**

FISCAL YEAR 2024  
STATE ADMINISTRATIVE EXPENSE PLAN  
INSTRUCTIONS AND PROCEDURES

**General Instructions:**

The SAE Plan is divided into two parts: 1) the Budget, which identifies budget needs for the forthcoming year showing projected amounts by cost category and funding sources, the total forthcoming fiscal year SAE allocation, and the estimated total SAE carryover for the current fiscal year; and 2) an enhanced Description of Activities section for utilization of State and Federal funds, reported in staff years. Please address both parts in your plan.

We encourage State agencies (SAs) to assess their accomplishments at mid-year to evaluate status in relation to the planned activities to be achieved. A comparison of costs in the approved plan budget to actual expenditures will assist SAs in determining if the plan is a reasonable projection of actual expenditures and will allow SAs to adjust the funding levels of future plans when actual spending levels are significantly different.

We also encourage SAs that need to revise their SAE Plans to submit the revisions to the FNS Regional Office (FNSRO) by November 3, 2023. The FNSRO will review the plan and negotiate agreements with SAs to resolve any problem areas that are identified. The FNSRO will advise the SA of any additional specific areas which are important to the approval of the plan.

When the FNSRO is satisfied that plan revisions are complete and accurate, the SA will be advised, accordingly. Release of SAE funds is contingent upon the SA having an approved SAE Plan. Please note that no funds will be released prior to October 1.

**Amendments to the Plan**

SAs should amend the SAE Plan any time during the fiscal year to justify additional SAE funds up to the amount allocated by the formula for the year, plus carryover from the previous year (up to 20 percent). The plan should be amended when one or more of the following substantial changes occur:

- Any increase or decrease to a budget item which is greater than 20 percent of the amount approved for the budget line item in the most recently approved plan or amendment thereto. However, if the increase or decrease is less than \$10,000, regardless of the percentage change, no amendment is required.
- Any addition or deletion of any activity that is included in the most recently approved plan or amendment thereto.
- Any increase or decrease to the staffing level for any activity which is greater than 20 percent of the staff years approved for that activity in the most recently approved plan or amendment thereto.

FNS will assess and monitor the SAE Plan and use of funds throughout the year by way of Management Evaluations, the reallocation process, periodic assessments, audits, etc.

**Part I**

**FISCAL YEAR (FY) 2024 STATE ADMINISTRATIVE EXPENSE (SAE) PLAN**

Louisiana Department of Agriculture and Forestry  
STATE AGENCY

The SAE Plan represents the State's use of available funds in FY 2018 for the administration of the Child Nutrition Programs (CNP) including the National School Lunch, School Breakfast, Special Milk, Fresh Fruit and Vegetable Program, Summer Food Service Program, Child and Adult Care Food Program and Food Distribution (FD) Programs as it relates to the CNPs. The Plan should be limited to Child Nutrition (CN) activities only. Do not include The Emergency Food Assistance Program administrative funds. State agencies that administer only the FD Programs and do not administer any of the other CN Programs cited above need only report expenditures for ADP equipment under line 3e, and may use lines 4b and 4c to report SAE funds budgeted and actual and projected expenditures from State sources.

1. Estimate of SAE Formula Allocation for Fiscal Year (FY) 2024. The formula allocation figure for FY 2024 will be provided to each SA by FNS.
2. FY 2023 Estimated Carryover. The SA must provide its best estimate of FY 2023 carryover. This should be a realistic figure based upon data available to the SA. FNS will reconcile the projected carryover amount to actual carryover as reported on the fourth-quarter FNS-777 Report. The amount reported here cannot exceed 20 percent of the formula allocation amount for Fiscal Year 2023.
3. FY 2024 Budget Categories of Allowable Cost. For line items 3(a) - 3(e) do not include any non-Child Nutrition activity. However, SAs need not exclude all non-Child Nutrition activity if such activity is integrated into overall SA functions and is difficult to distinguish. Non-Child Nutrition activities so included must involve relatively minor resource commitments. SAs that wish to include non-Child Nutrition activity should notify the FNSRO. SAs should not include assessment fees for the Food Distribution Program.

Items of equipment with an acquisition cost of less than \$5,000 are considered to be supplies.

Do not include in this category the cost of automated data processing equipment or any capital expenditures such as repairs which materially increase the value or useful life of nonexpendable equipment. Such items should be included in Category 3(e).

- d) **Support services/general administrative** expenses in accordance with 2 CFR Part 200 Uniform Administrative Requirements, Cost Principles and Audit Requirements for Federal Awards refers to the allowable cost categories noted below. ## Part II

### ACTIVITY SECTION FISCAL YEAR 2024 STATE ADMINISTRATIVE EXPENSE PLAN

The state must provide a written explanation for the use of its resources in the various activities identified below for Child Nutrition Programs (CNP) including the National School Lunch, School Breakfast, Special Milk, Fresh Fruit and Vegetable Program, Summer Food Service Program, Child and Adult Care Food Program and Food Distribution Programs as it relates to the CNPs. The explanation should be brief, but in sufficient detail to clearly identify the resources committed and specific activities undertaken. Total staff years described in all the activities must equal total staff years reported in item 7 on the SAE Budget page.

If the state anticipates transferring SAE funds to an alternate state agency at any point during the grant cycle, notify Financial Management Regional Office (RO) staff and the RO Child Nutrition Programs point of contact.

#### Program Monitoring

LDAF Food Distribution is tasked with compliance monitoring of NSLP 176 SFAs with 1900 school sites; 5 food banks with 498 pantries and soup kitchens, SFSP sites, and Disaster Assistance. In 2023, a total of 296 compliance reviews were conducted. FD objective is to review 100% of recipient agencies within a 3 year period. This involves as many sites within a recipient agency as possible. For TEFAP recipient agencies, 100% of the RAs are reviewed annually. In order to complete this objective, the salaries, related benefits, fuel, travel expenses, and program supplies such as toner, ink, paper, printing, and computer/phone services are required.

Total staff years for this activity: 1.5

#### Technical Assistance

FD provides ongoing training and technical support as warranted by the program needs (NSLP, SFSP, TEFAP, DA). Partnerships with the TEFAP and NSLP SFAs are conducted along with partnering agencies such as LDH (CSFP) and LDE (CNP NSLP/SFSP/CACFP). Training materials and supplies to print training aids are used to meet this objective. Salary and related benefits for personnel to conduct training are a major portion of this cost. Also, travel and related resources.

Total staff years for this activity: 1.5

#### Federal Reporting/Claims Processing

Food Distribution for NSLP utilizes an inhouse developed system to track, monitor, and allocate USDA Food. The WBSCM system is used to place all direct shipments and diverted USDA Food. The USDA/DoD system (FFAVORS) for USDA/DOD orders. For TEFAP, WBSCM is utilized by SDA to procure requests for the TEFAP recipient agencies. Due to the deadline constraints, the SDA does not roll down the WBSCM ordering to the recipient or subrecipient agencies. The SDA surveys the recipient agencies and places orders accordingly. For grant utilization of entitlement funds and/or administrative funds, LDAF food distribution relies on our agency accounting department. FD staff process monthly TEFAP admin claims using a formula of per pound rate by the weight of USDA food distributed to disperse TEFAP admin funds to the TEFAP agencies. 100% of all TEFAP admin funds are pass through to the TEFAP agencies.

Total staff years for this activity: 1

### **Administration**

LDAF FD maintains handbooks for both NSLP and TEFAP programs. The handbook for NSLP is also applicable for disaster assistance and SFSP efforts. The handbooks serve as the State plan as well. Federal regulations, policies, and procedures are outlined in the handbook. These include but are not limited to program description, program beneficiary eligibility, use of food, recipient agency claim process, loss determination and reporting of out of condition food, civil rights, temperature and storage guidance, etc.

Total staff years for this activity: 2

### **Food Distribution Activities for Child Nutrition Programs (if applicable)**

USDA Food is ordered using the WBSCM system. There are 5 warehouses utilized to complete the food distribution of NSLP to SFAs. This includes 3 contracted warehouses and 2 State owned warehouses. The bulk of FD budget goes toward the operating costs associated with distribution. LDAF employs 6 drivers along with operation of 6 tractor/reefer trailers. Fuel, Salaries and related benefits are part of the cost. The lion's share comes from the storage and handling fees charged to the program by the contracted warehouses. The contracts are awarded every 5 years. Once awarded the contract is good for 1 year with a 4 year option so 5 year contract as long as vendor meets obligations. SFAs receive monthly allocations and food is delivered to their chosen destination. Some SFAs receive multiple deliveries to complete the monthly allocation. For example, East Baton Rouge Parish (2<sup>nd</sup> Largest district in the State) receives 1 monthly allocation but it takes 5 deliveries to complete the allocation.

Total staff years for this activity: 9.5

### **Farm to Child Nutrition (if applicable)**

FD participates in trainings, meetings, zoom calls, and webinars as requested. Our role is to provide logistics and storage for Farm to Child Nutrition projects. For example, storing farm to school raised garden beds for 6 months until the SFAs could utilize.

Total staff years for this activity: .5

### **Special Projects & Other Activities (if applicable)**

The Local Food for Schools Grant for NSLP and the Local Food Purchase Agreement Grant for TEFAP are administered by LDAF FD. Also, the Reach and Resiliency Grant rounds 1&2 as well as Farm to Food Bank funds. Some of the grants provide personnel such as job appointments to administer; however, the level of staffing is insufficient and the permanent staff are required to increase their workload to compensate for this shortfall which puts a burden on the NSLP, SFSP, and TEFAP administrative/operational duties such as compliance monitoring and training.

Total staff years for these activities: 2

REQUEST FOR MID-YEAR BUDGET ADJUSTMENT**

Policy and Procedure Memorandum No. 52, Revised, requires that all Requests for Changes in Appropriation be fully documented. At a minimum, the following questions and statements must be answered. Use Continuation Sheets as needed. **FAILURE TO ANSWER ALL QUESTIONS COMPLETELY WILL BE CAUSE TO RETURN THIS DOCUMENT WITHOUT ACTION.**

1. What is the source of funding (if other than General Fund (Direct))? Specifically identify any grant or public law and the purposes of the funds, if applicable. A copy of any grant application and the notice of approved grant or appropriation must accompany the BA-7. What are the expenditure restrictions of the funds?

Statutory Dedicated funds for the Louisiana Fortify Homes Program in accordance with Act 554 of the 2022 Regular Legislative Session. The requested funds will be used to make financial grants to retrofit roofs of insurable property with a homestead exemption to resist loss and meet or exceed the fortified home standards of the Insurance Institute for Business and Home Safety-"fortified roof". This BA-7 request is requesting additional budget authority for the unspent portion (fund balance) in the I14 Louisiana Fortify Homes Program fund as of June 30, 2024.

2. Enter the financial impact of the requested adjustment for the next four fiscal years.

Approval of this BA-7 will provide the additional budget authority to distribute the funds remaining in the I14 fund.

5. Is this an after the fact BA-7, e.g.; have expenditures been made toward the program this BA-7 is for? If yes, explain per PPM No.52.

No.

2. Complete the following information for each objective and related performance indicators that will be affected by this request. (Note: Requested adjustments may involve revisions to existing objectives and performance indicators or creation of new objectives and performance indicators. REQUEST FOR MID-YEAR BUDGET ADJUSTMENT**

Policy and Procedure Memorandum No. 52, Revised, requires that all Requests for Changes in Appropriation be fully documented. At a minimum, the following questions and statements must be answered. Use Continuation Sheets as needed. **FAILURE TO ANSWER ALL QUESTIONS COMPLETELY WILL BE CAUSE TO RETURN THIS DOCUMENT WITHOUT ACTION.**

1. What is the source of funding (if other than General Fund (Direct))? Specifically identify any grant or public law and the purposes of the funds, if applicable. A copy of any grant application and the notice of approved grant or appropriation must accompany the BA-7. What are the expenditure restrictions of the funds?  
The source of the funding is the The Local Food Purchase Assistance Cooperative Agreement Program (LFPA) Federal Grant from the U.S. Department of Agriculture (USDA). Overall, the purpose of this grant is to maintain and improve food and agricultural supply chain resiliency for which such food will serve Louisiana feeding programs, including food banks, schools and organizations that reach underserved communities.

2. Enter the financial impact of the requested adjustment for the next four fiscal years.

3. If this action requires additional personnel, provide a detailed explanation below:  
This action requires no additional support.

4. Explain why this request can't be postponed for consideration in the agency's budget request for next fiscal year.  
There was an exponential ramp in activity during FY24 and FY25 related to the LFPA Federal Grant which will end on 06/30/2025. Without approval of the additional Federal budget authority being requested, Agency 941 (Agriculture & Forestry - Pass Through Funds) would run the risk of brushing up against maximum Federal budget authority and generating potential Federal Overcollections which would be unusable and providing for an unbalanced budget.

5. Is this an after the fact BA-7, e.g.; have expenditures been made toward the program this BA-7 is for? If yes, explain per PPM No.52.  
No, this is not an after the fact BA-7.

**STATE OF LOUISIANA  
DIVISION OF ADMINISTRATION, OFFICE OF PLANNING AND BUDGET  
REQUEST FOR MID-YEAR BUDGET ADJUSTMENT**

**PERFORMANCE IMPACT OF MID-YEAR BUDGET ADJUSTMENT**

1. Identify and explain the programmatic impacts (positive or negative) that will result from the approval of this BA-7.

Approval of the additional Federal budget authority being requested would allow Agency 941 (Agriculture & Forestry - Pass Through Funds) that ability to collect the necessary Federal funds and provide for a balanced budget.

2. Complete the following information for each objective and related performance indicators that will be affected by this request. *(Note: Requested adjustments may involve revisions to existing objectives and performance indicators or creation of new objectives and performance indicators. Repeat this portion of the request form as often as necessary.)*

OBJECTIVE:

LEVEL	PERFORMANCE INDICATOR NAME	PERFORMANCE STANDARD		
		CURRENT FY 2024-2025	ADJUSTMENT (+) OR (-)	REVISED FY 2024-2025

JUSTIFICATION FOR ADJUSTMENT(S): Explain the necessity of the adjustment(s).

3. Briefly explain any performance impacts other than or in addition to effects on objectives and performance indicators. *(For example: Are there any anticipated direct or indirect effects on program management or service recipients? Will this BA-7 have a positive or negative impact on some other program or agency?)*

This BA-7 will allow the department to collect the necessary Federal funds and provide for a balanced budget. If not, the current amount of Federal budget authority would put the Agency at risk of brushing up against its maximum and generating potential Federal Overcollections which would be unusable and providing for an unbalanced budget.

4. If there are no performance impacts associated with this BA-7 request, then fully explain this lack of performance impact.  
The performance impacts associated with this request are identified, to the extent possible, in the explanations above.

5. Describe the performance impacts of failure to approve this BA-7. *(Be specific. Relate performance impacts to objectives and performance indicators.)*  
The department will not have sufficient Federal budget authority and would put the Agency at risk of brushing up against its maximum and generating potential Federal Overcollections which would be unusable and providing for an unbalanced budget.

Peltier Hall Roof Replacement  
Nicholls State University  
Thibodaux, Louisiana  
Project No. 19-671-22-01; WBS F.19002478**

Dear Chairman Womack:

An emergency project was created to replace the damaged roof at the Peltier Hall on the Nicholls State University Campus.

Upon an inspection of the exiting roof system, it was discovered that a part of the existing roof structure does not have the required slope for proper drainage of the roof system application. This was discovered during the removal of the existing roof and was hidden because that portion of the roof was found to have two roofing systems with one applied over the other. After extensive negotiations, an additive change of \$134,107.00 was agreed upon to add the material and labor to remedy the roof slope to complete the replacement of the bitumen roofing system.

As there is no other viable solution, we respectfully request approval of a change order over \$100,000.00 to complete the new roof. The Designer has reviewed the estimated price to ensure that it is appropriate and has recommended this change order to FPC for this work. All of the funds required would be covered by the project contingency funds.

Please place this item on the agenda of the next meeting of the Committee.

          New Orleans Rail Gateway Finalize EIS to Complete Study  
          Project ID 571975  
          and  
          Jefferson Highway Rail Grade Crossing (New Orleans Rail Gateway Program)  
          Project ID 571989**

Dear Chairman Womack:

Act 5 of 2024 includes two projects for the Department of Transportation and Development/Public Improvements: New Orleans Gateway Finalize EIS to Complete Study (Project ID 571975) and Jefferson Highway Rail Grade Crossing (New Orleans Rail Gateway Program (Project ID 571989). The New Orleans Rail Gateway Study is an ongoing study to identify a program of projects to upgrade the New Orleans Rail Gateway (NORG) and infrastructure in Jefferson and Orleans Parishes to improve public safety, increase regional competitiveness, and enhance economic growth. At this time, the study has identified over 50 construction projects. As funding continues to be requested and secured for each construction project, it is practical for accounting and audit purposes to have the projects combined into one House Bill 2 line item for the program. Therefore, Facility Planning and Control is requesting to combine both appropriations under Project ID 571975 with the new project title of "New Orleans Rail Gateway Program".

Please place this item on the agenda of the next meeting of the Committee.

Sincerely,

Roger E. Husser, Jr.  
Director

Re: LDH Request for September JLCB Agenda Item Pursuant to R.S.39:1615(J)

Dear Senator Womack:

The Louisiana Department of Health (LDH) requests that the following contract be placed on the agenda for the Joint Legislative Committee on the Budget (JLCB) September hearing for consideration by your committee pursuant to R.S.39:1615(J). LDH has a current contract with this entity and wishes to extend this contract pursuant to the extension options in the contract, but we believe that R.S.39:1615(J) requires the approval of your committee before proceeding. The contract is as follows:

**DentaQuest Dental.**

This is a three year, statewide contract with Medicaid that provides dental benefits for children and adults enrolled in Louisiana Medicaid. The contractor (DentaQuest) will function as a risk-bearing, Prepaid Ambulatory Health Plan health care delivery system that provides specified core dental benefits and services for eligible Louisiana Medicaid enrollees as defined in the Louisiana Medicaid State Plan, administrative rules and Medicaid Policy and Procedure manuals. The current contract, which was executed on January 1, 2021, and extended for one year on January 1, 2024, expires on December 31, 2024. LDH is satisfied with the performance of DentaQuest and would like to exercise the extension option in the contract. LDH is requesting approval of the JLCB to extend the contract until December 31, 2025 to avoid disruption to the enrollment and disenrollment process.

Thank you for considering our request to have this contract extension included on the September JLCB agenda. I am enclosing a copy of the contract for your convenience. If you have any questions or need any additional information, please feel free to contact Bethany Blackson at (225) 342-4773 or [Bethany.Blackson@la.gov](mailto:Bethany.Blackson@la.gov).

# LDH LEGISLATIVE TALKING POINTS

## DentaQuest Contract Extension

### Overall Key Messages

- LDH is requesting permission to exercise the option for a twelve (12) month extension of the contract with DentaQuest USA Insurance Company, Inc. for a continuation of dental benefits and services for eligible Louisiana Medicaid enrollees. The original Dental Benefit Program Manager (DBPM) contract term was January 1, 2021 – December 31, 2023. The contract was then extended for a twelve (12) month term of January 1, 2024- December 31, 2024.
- DentaQuest delivers services to over 771,000 Medicaid enrollees.
- Without this extension, the department would have to amend the dental program 1915(b) waiver that requires the state to provide enrollees with a choice of at least two DBPMs. Following CMS approval, the LDH enrollment broker would have to reassign all DentaQuest enrollees to the remaining DBPM, MCNA.

### Impact

- The extension of the contract would allow enrollees to continue to receive dental benefits and services without interruption, while providing additional time for RFP development that is in progress, with services expected to begin January 1, 2026.
- The chart below details the fiscal year breakdown of the extension:

	DentaQuest
<b>FY21</b> 1/1/2020 - 6/30/2021	\$56,689,544
<b>FY22</b> 7/1/2021 - 6/30/2022	\$116,780,460
<b>FY23</b> 7/1/2022 - 6/30/2023	\$128,734,874
<b>FY24</b> 7/1/2023 - 12/31/2023	\$66,171,696
<b>Total Base Contract</b>	\$368,376,574
<b>FY24</b> 1/1/2024 - 6/30/2024	\$63,433,173*
<b>FY25</b> 7/1/2024 - 6/30/2025	\$116,836,113
<b>FY26</b> 7/1/2025 - 12/31/2025	\$61,369,983
<b>Total with 2-year Extension</b>	\$610,015,843

\*Decrease is due to Unwind. There will be fewer individuals enrolled beginning 1/1/24 than 1/1/23 and enrollment is expected to decline over the next six months.

- DentaQuest increase: \$610,015,843 (new total) minus - \$368,376,574 (previous total as of amendment 6)= \$241,639,269.

## Background

- The current contract provides for a three-year base term (January 1, 2021 – December 31, 2023) plus the option to extend for up to two years. The total term shall not exceed five (5) years. One year of the extension has been exercised.
- This contract is necessary to achieve the following goals:
  - Improved coordination of care;
  - Better dental health outcomes;
  - Increased quality of dental care;
  - Improved access to essential specialty dental services;
  - Maintain enrollee freedom of choice
  - Outreach and education to promote dental health; and
  - Increased enrollee responsibility and self-management.

## Louisiana Legislature Performance Audit

On August 5, 2024, the Louisiana Legislative Auditor released a follow-up [performance audit](#) on DentaQuest's performance, and DentaQuest issued a response to the audit.

## DentaQuest Response to Performance Audit

- Increased their number of specialists: DentaQuest secured six (6) new oral surgeons and one (1) pediatric dentist;
- Enhanced their local provider network management team by employing four (4) regional provider relations representatives that conduct field activities to address provider concerns and recruit and retain dental specialists.
- Reduced their number of appeals: DentaQuest developed a new clinical tool that provides transparency of clinical review standards. This tool comprises of focused network provider trainings on clinical criteria requirements. Effective December 1, 2023, DentaQuest removed prior authorization requirements for certain providers who consistently met high claim approval ratings and other key metrics.

## Enrollee and Provider Impact of non-renewal of DentaQuest's contract:

### **Impact to enrollees**

- Dental provider networks are not the same for both DBPMs. DentaQuest enrollees may have primary dental provider who are not in MCNA's network. Enrollees potentially may need to establish a new dental home.
- DentaQuest enrollees receiving treatment may undergo interruption of treatment during the transition period.

### **Impact to providers**

- Providers solely contracted with DentaQuest will no longer be able to participate in the Medicaid program unless they contract with MCNA. Since credentialing and contracting takes time, advance notice and credentialing time would be needed.

## LDH Impact of non-renewal of contract:

- CMS' Code of Federal Regulations (CFR) generally require states to provide a choice of at least two Prepaid Ambulatory Health Plans (PAHP), as follows:
  - 42 CFR § 438.52 Choice of MCOs, Prepaid Inpatient Health Plan (PIHPs), PAHPs, Primary Care Case Management (PCCMs), and PCCM entities.

*General rule: Except as specified in paragraphs (b) [rural area residents can be limited to 1 PAHP with certain conditions] and (c) [health insuring organizations can limit beneficiaries to 1 MCE with certain conditions] of this section, a State that requires Medicaid beneficiaries to enroll in an MCO, PIHP, or PAHP, and must give those beneficiaries a choice of at least **two** MCOs, PIHPs, or PAHPs.*

- LA Medicaid operates the dental program under 915(b) waiver that requires the state to provide enrollees with choices. When LDH operated with a single PAHP from 2014-2020, the Department had to make assurances to CMS. Doing so again will require a waiver amendment, which requires CMS approval.
- CMS approval is typically 90 days but they can take an amendment off the clock, which could extend the timeframe. In addition to the 90-day review period, LDH must also issue tribal notice which extends the timeframe to 120 days after the amendment is drafted.
- Following CMS approval, Maximus, the enrollment broker contractually gets 60 days to implement the change, extending the timeframe to February 28, 2025.
- There will be an impact to both members and providers.
  - **Members:**
    - DentaQuest provides oral healthcare to over half of the Medicaid population, with 771,125 members.
    - Dental provider networks are not the same for both DBPMs. DentaQuest members may have a primary dental provider who is not in MCNA's network. They would have to choose a new dental home.
    - DentaQuest members receiving treatment may undergo interruption of services during the transition period.
  - **Providers:**
    - Providers who are only contracted with DentaQuest will no longer be participating in the Medicaid program unless they contract with MCNA. Since credentialing and contracting takes time, advance notice would be best.
    - MCNA will need to have new provider agreements with dentists who are not in their network if the choice is to have one dental provider, which could extend implementation and cause disruption to members.
- Time Constraint to Implement-to gain approval from CMS, possibly amending the waiver, communicating with providers and members, and moving members from DentaQuest to MCNA would need to happen between now and December 2024. There is not enough time to implement this major change.

### Medical Loss Ratio Comparison

- DentaQuest did not meet contract requirement to spend at least 85% of its PMPMs on dental services, they were required to refund approximately \$9.1 million for calendar years 2021 and 2022. However, DentaQuest's Medical Loss Ratio (MLR) showed improvement for this time span.

## Dental Benefit Program Manager Reporting Oversight

- DBPMs submit 42 unique reports to LDH, in a combination of weekly, monthly, quarterly, and annual frequencies. Oversight of half of the reports is managed by the Medicaid dental team, comprised of only two employees. While all reports provide oversight, some have metrics that are measured against the contract (ex. provider and enrollee call centers), and other report information for oversight only (ex. interest paid). Other reports provide visibility into internal operations of the DBPM (ex. marketing and network development). When a DBPM is found non-compliant through reporting or discovery of an issue by the Department, notices of action and notices of monetary penalty are issued, as outlined in the table below.

## Medicaid Dental Benefit Program Manager - DentaQuest

Louisiana Department of Health

MICHAEL J. "MIKE"  
WAGUESPACK, CPA

Audit Control# 40240012  
Performance Audit Services - July 2024

### Background

The Louisiana Department of Health (LDH) began contracting with DentaQuest USA Insurance Company (DentaQuest) and MCNA Insurance Company (MCNA) (collectively known as dental benefit program managers, or DBPMs) on January 1, 2021, to provide Medicaid members with covered dental benefits and services.<sup>1</sup> Eligible Medicaid members include (1) Medicaid members under the age of 21 and (2) Medicaid members who are ages 21 or older *and* whose Medicaid coverage includes the full range of Medicaid services. Children under the age of 21 have comprehensive dental benefits<sup>2</sup> from these two DBPMs, while adults primarily have denture coverage.<sup>3</sup> Louisiana expanded coverage in July 2022 to include adults ages 21 and over who are enrolled in one of the state's waiver programs<sup>4</sup> and in May 2023 to include adults ages 21 and over who reside in a state intermediate care facility for individuals with intellectual disabilities (ICF/IID).

The total cost of both contracts through December 31, 2023, was approximately \$736.7 million. LDH sought and received approval from the legislature for a two-year extension of MCNA's contract through December 31, 2025, at a maximum additional cost of approximately \$252.4 million. While LDH sought a two-year extension for DentaQuest, the legislature only approved a one-year extension of DentaQuest's contract through December 31,

### Why We Compiled This Informational Brief

We conducted this analysis in response to a legislative request asking us to assess the performance of DentaQuest related to types of services provided, provider complaints, member grievances, claims denials, and network adequacy. This informational brief follows-up on issues identified in a [previous report](#). To conduct this analysis, we reviewed DentaQuest's contract, analyzed Medicaid data, and reviewed certain required contract deliverables such as required reports that DentaQuest must submit to LDH. We relied on these reports and did not independently verify all underlying data.

Informational briefs are intended to provide more timely information than standards-based performance audits. While these informational briefs do not follow all *Government Auditing Standards*, we conduct quality assurance activities to ensure the information presented is accurate. In addition, we incorporated feedback we received from LDH throughout the report.

<sup>1</sup> According to LDH, there were three bidders for these contracts.

<sup>2</sup> Services covered include diagnostic, preventative, restorative, endodontic, periodontics, prosthodontic, fixed prosthodontics, oral and maxillofacial surgery, orthodontic, and adjunctive general.

<sup>3</sup> Adults have access to comprehensive oral examinations and radiographs, as well as a range of denture services. Some of the six Healthy Louisiana (Medicaid) health plans offer additional dental coverage for adults as value-added services.

<sup>4</sup> Includes the New Opportunities Waiver, the Residential Options Waivers, or the Supports Waiver.

2024, at a maximum additional cost of approximately \$125.9 million, due to issues with performance. The legislature asked the LLA to conduct a follow-up review of DentaQuest prior to extending its contract further.

From June 1, 2014, through December 31, 2020, LDH contracted solely with MCNA for dental services under a waiver<sup>5</sup> from the Centers for Medicare and Medicaid Services (CMS). However, LDH now contracts with two DBPMs because federal law<sup>6</sup> requires that states give Medicaid members a choice of at least two DBPMs. Therefore, LDH can either seek another one-year extension of DentaQuest’s contract through December 31, 2025, or apply for a waiver from CMS to have only one DBPM for calendar year 2025. LDH pays a per member per month payment (PMPM) to each DBPM for each member to efficiently manage service costs and utilization, to improve access to specialty dental services, and to increase outreach and education to promote healthy dental behavior. Exhibit 1 summarizes the monthly dental PMPM amounts as of June 2024 by coverage type.

## What We Found

**LDH paid approximately \$408.0 million in PMPMs to DentaQuest for dental coverage for approximately 1.2 million unique Medicaid members from January 1, 2021, through March 31, 2024. DentaQuest provided approximately \$232.7 million in dental services over this same time period.**<sup>7</sup> Included in the \$408.0 million in PMPMs LDH paid to DentaQuest is \$80.5 million in Full Medicaid Pricing (FMP) payments. The purpose of FMP is to increase payments to contracted providers to maintain and increase access to dental services for Medicaid members. According to LDH, the DBPMs determine the amounts to pay providers.<sup>8</sup> These FMP payments, as well as the amount directly paid to providers for services, results in a total amount of \$313.2 million paid to

<sup>5</sup> A Medicaid waiver allows the federal government to waive rules that usually apply to the Medicaid program.

<sup>6</sup> 42 Code of Federal Regulations (CFR) 438.52

<sup>7</sup> This number understates the amount of services paid by the DBPMs, because Medicaid providers have up to 365 days to bill for services rendered. Therefore, some services provided from April 2023 through March 2024 may not yet be included in the data. In addition, FMP payments are not included in this amount.

<sup>8</sup> LDH stated that it produces and publishes an FMP report but does not involve itself with FMP payments to providers or track/monitor FMP provider payments, except to review the aggregated FMP payment amount in each MCO’s quarterly financial statement because of federal regulations [42 CFR 438.6(c)(1)(2021)] prohibiting states from directing payments to individual providers.

DentaQuest’s dental providers during this time period. As of July 2023, LDH no longer makes FMP payments to the DBPMs and instead increased rates on the fee schedule. Exhibit 2 summarizes the number of unique DentaQuest providers who provided services and the amount paid by provider specialty from January 2021 through March 2024.

 \*\*\* According to LDH staff, these may represent coding errors in the Medicaid data.

**Because DentaQuest did not meet the contract requirement to spend at least 85.0% of its PMPMs on dental benefits and services, it had to refund LDH approximately \$9.1 million for calendar years 2021 and 2022. However, DentaQuest’s Medical Loss Ratio (MLR) improved from calendar year 2021 to 2022.** DentaQuest is required by its contract to submit an annual MLR report detailing how much it spent on dental benefits and services compared to how much it spent on administrative and other expenses. LDH contracts with Myers and Stauffer to examine the information in the MLR reports and adjust the numbers as appropriate. If the aggregate MLR for DentaQuest is less than 85.0%, then it must refund LDH the difference. Exhibit 3 summarizes the calendar year 2021 and 2022 MLRs for DentaQuest for the expansion and non-expansion Medicaid populations, the amount of PMPMs paid by LDH to DentaQuest for each population, and the amount DentaQuest refunded LDH as a result of not meeting the required MLR.

**DentaQuest did not meet all requirements for network adequacy as of June 2023 or June 2024. However, according to an LDH report, Louisiana has a shortage of dental providers across the state.** DentaQuest’s contract requires it to design, develop, and maintain a network that reflects the needs and service requirements of its members, is sufficient to serve its members, and maximizes the availability of primary and specialty dental services. However, the contract does not specify how many providers DentaQuest must have in its network. According to an LDH report,<sup>9</sup> all but six parishes in Louisiana have been designated as a health professional shortage area for dentists.

DentaQuest is required to submit quarterly network adequacy reports to LDH showing the number of contracted providers in its network. Exhibit 4 summarizes the number of providers contracted by DentaQuest and the provider’s specialty as of June 2023 and June 2024. It shows that for some specialties, such as

endodontists, periodontists, and prosthodontists, DentaQuest contracts with five or fewer providers statewide. In addition, according to DentaQuest’s network adequacy reports as of June 2024, it has no dental providers, including general dentists, in five parishes – Assumption, Cameron, Jackson, Madison, and West Feliciana – and 40 parishes did not have any specialty providers available.<sup>10</sup> According to DentaQuest, some specialty types in June 2024 have fewer dentists than they did in June 2023 because DentaQuest

corrected some inaccuracies identified in the previous reports. Appendix A summarizes the number of providers by parish.

DentaQuest’s contract requires it to meet distance requirements (*see text box at right*) and demonstrate compliance on quarterly reports. LDH changed the distance requirement for specialty dental services from 90 miles to 75 miles in July 2023. We reviewed the report as of June 2024 and compared it to June 2023 to determine the number of parishes that were not in compliance with these distance requirements. We found that DentaQuest did not meet all requirements. Exhibit 5 summarizes the number of parishes where distance requirements were not met, and Appendix B shows this information by parish.

**Distance to Primary Dental Services:**  
 Travel distance from enrollee’s place of residence shall not exceed **thirty (30) miles**; and **ten (10) miles** for urban areas.

**Distance to Specialty Dental Services:**  
 Travel distance shall not exceed **sixty (60) miles** one-way from the enrollee’s place of residence for at least **seventy-five (75)** percent of enrollees; and shall not exceed **seventy-five (75) miles** one-way from the enrollee’s place of residence for **all** enrollees.

**Source:** Prepared by legislative auditor’s staff using DentaQuest’s self-reported data. We relied on reports submitted by DentaQuest and did not independently verify the underlying data.

According to LDH, it does not perform any independent analysis of underlying claims or provider data to validate the information submitted by DentaQuest on these reports. Instead, LDH contracts with an External Quality Review Organization to review network adequacy as part of its external quality review.

**While there were a large number of provider complaints attributable to challenges associated with onboarding DentaQuest as a new DBPM in calendar year 2021, the number of complaints appears to have leveled off.** Specifically, DentaQuest had 896 complaints in calendar year 2021. From January 2023 through July 2023, DentaQuest had 23 provider complaints, while it had 24 provider complaints from August 2023 through May 2024. DentaQuest is required to submit monthly reports to LDH on the number of complaints received from providers. The most common type of provider complaint was related to claims processing, as 35 (74.5%) of 47 complaints were for this reason. Exhibit 6 summarizes the number of provider complaints by reason between January 2023 and May 2024.

A provider **complaint** is any contact, by phone, in writing, or in person, originating from a provider and delivered to any member of health plan staff voicing dissatisfaction with a policy, procedure or any other communication or action by the dental plan.

A **formal claims dispute** is a process where a provider can appeal a decision by the DBPM to deny or underpay a claim.

Dental providers stated through interviews and documentation that the following are areas of concern with DentaQuest:

- Providers noted continued issues with **denials of claims**. Some providers reported that the denials are inconsistent with current clinical best practices and guidelines and are the opposite of what is being taught in dental school residency programs. One provider stated, “Perception is that they are looking for ways to save money so they can show the state that they are saving, but they are denying medically necessary and needed care. Providers are going to stop accepting them if this continues.” In particular, providers noted ongoing difficulties with stainless steel crowns and sedation services. According to DentaQuest staff, some claims should be denied, such as

those not medically necessary. Further, they stated that sometimes claims are denied because the original claim submissions do not contain sufficient explanation of necessity. However, when providers submit missing information later, it often leads to these claims being approved. See Exhibit 7 for paid and denied claims included in our previous report (January 2021 through December 2022) compared to our additional timeframe (January 2023 through March 2024) and Appendix C for the number of paid and denied claims by provider specialty for the same time period.

- Although previous comments from providers noted issues with **communication**, such as often having to make multiple phone calls to their provider representatives to get any resolution to concerns, providers stated that they see improvements in DentaQuest's communication. According to DentaQuest staff, they replaced some provider representatives and added an additional provider representative.
- One concern noted by several dentists was the **peer-to-peer review**, a tool available to providers to resolve disputes that may arise between a provider and DentaQuest. These reviews provide a means for resolving differences of opinion and focus on appropriateness of care, quality of care, and fees. Several dentists stated that the peer-to-peer reviewers are not truly peers, citing the example that a general dentist is conducting the review instead of a dentist of their specialty (i.e., pediatric dentistry, oral surgery, etc.) who would have the training and expertise to address concerns. The American Dental Association Guidelines for Peer Review<sup>11</sup> indicate that the peer review committee should have specialists available as resources who can be appointed if the provider under review requests. According to

<sup>11</sup> [https://www.ada.org/-/media/project/ada-organization/ada/ada-org/files/resources/practice/practice-management/ada\\_guidelines\\_for\\_peer\\_review.Page](https://www.ada.org/-/media/project/ada-organization/ada/ada-org/files/resources/practice/practice-management/ada_guidelines_for_peer_review.Page)

DentaQuest, they generally assign the consultant that originally denied the claim to the review, but specialists are available for providers upon request.

- Providers noted that there are issues with the timeliness of DentaQuest's **credentialing process**. Often times, these are dentists who recently graduated dental school. While providers feel it is reasonable that it could take up to six weeks for a provider to be credentialed, they stated that it takes six to 12 months in some cases. One provider reported that their application was lost on three occasions, despite being sent electronically, by mail, and by fax. Providers stated that MCNA will provisionally credential a provider with the understanding that the dentist would have to repay any amounts paid if their application is denied; however, DentaQuest does not do this.

**The most common DentaQuest grievance was related to quality of care issues, while most appeals were related to denials or limited authorizations of services that had been previously authorized.**

DentaQuest had 212 grievances from January 2021 through June 2023, and it had 77 grievances from October 2023 through May 2024.<sup>12</sup> Most of DentaQuest's grievances during both periods related to quality of care issues. Between January 2021 and June 2023, DentaQuest had 1,847 appeals, most commonly related to dental procedures not meeting clinical criteria. Between October 2023 through May 2024, DentaQuest had 329 appeals with most related to denials or limited authorizations of services that had been previously authorized. Exhibit 8 summarizes the number and reason for DentaQuest's grievances and appeals from October 2023 through May 2024.

A **grievance** is an expression of member dissatisfaction about any matter other than an adverse benefit determination. Examples of grievances include dissatisfaction with quality of care, quality of service, rudeness of a provider, or a network employee and network administration practices.

An **appeal** is a request for a review of an action and involves a formal process whereby a member has the right to contest an adverse benefit determination by the DBPM, which is the denial or limited authorization of a requested service, including the type or level of service; the reduction, suspension, or termination of a previously authorized service; the denial, in whole or in part, of payment for a service, etc.

<sup>12</sup> LDH changed the information captured for grievances and appeals starting with the October 2023 monthly report, so we only included this month forward in this analysis.

We further analyzed member appeals that had been resolved and found that, when compared to the period covered in our previous report, the appeal was successful for the member less often during the additional months we reviewed (July 2023 through May 2024)<sup>13</sup> than in the period analyzed during the previous report (January 2021 through June 2023). For example, 845 (43.9%) of 1,925 members’ appeals were found in favor of the member in our previous report, while 167 (35.0%) of 477 members’ appeals were found in favor of the member in the additional months we analyzed. According to an amendment to DentaQuest’s contract as of January 2024, LDH shall penalize DentaQuest if 30.0% or more of denied appeals are reversed in favor of the member within a 12-month period. Exhibit 9 shows how appeals were resolved for each of these periods spanning from January 2021 through May 2024.

<sup>13</sup> Appeals determination categories did not change like the previous analysis, so we were able to analyze all months not included in the previous report.

**Between January 2021 and August 2023, LDH issued \$1.1 million in penalties to DentaQuest for 19 instances of noncompliance with the DBPM contract. It issued \$935,000 in penalties to DentaQuest for ten instances of noncompliance between September 2023 and June 2024.** The most common category of noncompliance between September 2023 and June 2024 was claims and encounter management, with five (50.0%) of the 10 instances of noncompliance. As of June 2024, LDH had assessed more than \$2.0 million in penalties to DentaQuest for noncompliance with contract requirements, including failure to submit required reports, failure to meet encounter data submission requirements, and failure to meet performance measures. ## APPENDIX B: COMPLIANCE WITH DISTANCE REQUIREMENTS BY PLAN AND PARISH AS OF JUNE 2024

The following are distance requirements by type of dentist listed in the contracts:

- One-way distance from the member’s place of residence to primary dental services, which includes general dentists and pediatric dentists, shall not exceed 10 miles for urban areas and 30 miles for rural areas.
- One-way distance from the member’s place of residence to specialty dental services, which includes endodontists, oral and maxillofacial surgeons, orthodontists, periodontists, and prosthodontists, shall not exceed 60 miles for at least 75% of members and 75 miles for 100% of enrollees.

Louisiana Legislative Auditor

Dear Mr. Waguespack:

Thank you for your thoughtful review and summary of DentaQuest's performance that you provided to us, Senate President Henry and Speaker DeViller. We appreciate the opportunity to provide more context for several key areas of your brief.

DentaQuest has had the privilege of serving the state of Louisiana with Medicaid adult value-add benefits through partnerships with health plans, Medicare and Marketplace dental programs for 11 years, and Medicaid and CHIP since 2021.

As we discussed, DentaQuest has been working diligently since the release of the October 2023 audit report, and we have successfully addressed the areas outlined in the report including:

- **Increased number of specialists:** Secured six new oral surgeons and a pediatric dentist.
- **Connected with the providers:** Our four dedicated local network management team members – exceeding the contract staff requirement – met in person and via phone with over 300 providers this year to retain existing providers and recruit new providers including those that left the network.
- **Reduced the number of appeals:** Created a new clinical tool to provide transparency regarding clinical review criteria, launched new training that helps providers reduce administrative burdens and launched a provider newsletter that includes helpful tips.

DentaQuest is a proud client partner with LDH. Together we share a goal to increase access to quality care for members to meet our mission of improving the oral health of all.

Please do not hesitate to reach out to me or a member of my team directly if you have questions or require any additional information.

Sincerely,

*Bridgette Edwards*

## Network Management

The DentaQuest network leadership and network management teams continue to conduct outreach and meet providers in person to respond to questions quickly, address any claim issues, provide training and, most importantly, recruit and retain specialists.

To support and provide the best service to the participating providers, DentaQuest is exceeding the network management staff requirement with four local network management team members. In addition, a senior manager is regularly in the state supporting efforts to service existing providers and add new providers to the network.

DentaQuest will continue to look for innovative ways to solve for the access issues, such as partnering providers up to share office space, encouraging the use of teledentistry and increasing fees or offering incentives to providers to practice in rural areas. In addition, the team has and will continue to work closely with the Louisiana Dental Association and the National Dental Association, as well as attend dental conferences including the Pediatric Dental and Pelican State conferences, to meet with providers. For example, several of our network leadership team will attend the national American Dental Association conference in New Orleans this October.

## Recruitment

While the network management team continues to recruit new specialists, it is important to note that Louisiana, similar to other states, has a shortage of specialists. According to a [report published by LDH \(wellahedla.com/healthcare-access/health-professional-shortage-areas\)](https://wellahedla.com/healthcare-access/health-professional-shortage-areas), all but six parishes in Louisiana have been designated as a health professional shortage areas for dentists.

After negotiations, DentaQuest secured **six new oral surgeons** in the following areas: Baton Rouge, New Orleans, Lake Charles and Lafayette

As a result of network management efforts to reactivate participation among any provider that left our network, **three providers have re-joined the network and are actively seeing patients:**

Additionally, DentaQuest is partnering with Louisiana State University (LSU) Dental School to address the lack of providers in Assumption, Cameron, and Jackson Parishes. Our Corporate Giving team is working with Dr. Southerland, LSU's Vice Chancellor of Academic Affairs, on launching and funding a scholarship program for dental students who will agree to practice in rural areas of the state after they graduate.

## Appeals

DentaQuest has communicated to LDH that previously submitted appeals and grievance reports were inaccurate due to a programming error. DentaQuest has updated the reporting logic to only include true overturns, claims that after a second review continued to not meet the clinical criteria for payment. Claims that were denied due to missing information to support medical necessity and were overturned have been removed from the logic.

## Provider Appeals

To reduce the number of appeals, DentaQuest is working with the provider community to educate them on the clinical criteria as well as reducing any administrative burdens.

DentaQuest created new tools to help educate providers about the clinical criteria used when reviewing prior authorizations for complete transparency in how we review claims for medical necessity. For example, one guide details the documentation required to be submitted with prior authorization to help decrease appeals. This prior authorization summary was posted to the provider portal and an e-mail blast was sent to all providers with the information.

DentaQuest also reviewed providers who have a high claim approval rating and consistently meet other key metrics. For those providers, DentaQuest has removed prior authorization requirements for certain procedure codes, effective Dec. 1, 2023. In doing so, those providers will be able to focus more on treating the members and

less on paperwork. A group of 14 providers located throughout the state were initially selected to pilot this prior authorization exemption program, and it has expanded to 24 unique locations and 63 unique providers.

In another effort to help reduce administrative burdens, we have launched a new quarterly newsletter that provides tips for submitting accurate and complete claims and plan updates, and we launched a new monthly provider training program that includes information about the Medicaid program, how to use the portal and submit claims, and frequent questions and answers.

## **Medical Loss Ratio**

As responsible stewards of taxpayer dollars, DentaQuest is committed to ensuring the Medicaid program follows all federal and state rules and regulations including medical necessity requirements. In the aftermath of COVID shutdowns and people still delaying care in calendar year 2021, DentaQuest refunded \$8.1 million to the state – utilization was down, and the refund was expected as part of the risk share agreement to ensure Louisiana’s health care dollars are used appropriately. We returned \$960,000 to the state in calendar year 2022 and zero payable to the state for the first half of 2023. We remain on target for 2024, operating at an 85% loss ratio with a 15% risk share per the contract.

## Overview

- On September 20, 2024, LDH presented its request to exercise the option for a twelve-month extension of the contract with DentaQuest USA Insurance Company, Inc. to the Joint Legislative Committee on the Budget.
- Members of the committee requested additional information and scheduled a second hearing to be held on October 25, 2024.
- LDH provides the following in response to committee member questions during and following the September 20, 2024, meeting.

## Section 1: Dental Health Professional Shortage Areas (HPSA) in Louisiana

Twenty-two (22) parishes in Louisiana lack an adequate volume of dental health care providers.

HPSAs are designated by the Federal Health Resources and Services Administration (HRSA). A geographic HPSA is an area that HRSA designates as lacking enough health care providers to meet the needs of its population. A high needs geographic HPSA is an area with a shortage of health professionals and a population where more than 20% live at or below the federal poverty level.

Table 1 summarizes dental provider shortage areas in Louisiana.

### Subsection 1.2: LSU School of Dentistry

The mission of the Louisiana State University Health Sciences Center School of Dentistry (LSUSD) is to serve the needs of Louisianans by educating future general dentists, specialists and allied dental professionals.

Admissions for LSU’s Doctor of Dental Surgery program is comprised of 56 slots reserved for Louisiana residents, up to 4 slots for Arkansas residents and 15 slots are for residents of other states. The graduation rate is 98.9% and the average graduating dental class size is 80 students.<sup>1</sup>

\* Represents the unique number of providers based on the national provider identifier of the provider who rendered services across these specialties and thus is less than the sum of the columns.

\*\* Based on information available in Medicaid claims data, which does not include FMP payment amounts. LDH does not track FMP payment amounts by dental provider. Some amounts from January 2021 through December 2022 changed when compared to the previous report because additional claims were paid or denied.

\*\*\* According to LDH staff, these may represent coding errors in the Medicaid data.

Subject: GREATER NEW ORLEANS EXPRESSWAY COMMISSION  
FY 25 BUDGET ANALYSIS

The Greater New Orleans Expressway Commission (GNOEC) staff annually prepares its budget for approval by the Commissioners in accordance with its bond indenture. Upon approval by the GNOEC, the budget is then submitted to the Legislative Fiscal Office. The GNOEC approved the budget on August 14, 2024, and submitted the approved budget to the Legislative Fiscal Office.

Prior to the submission of the annual operating budget to the Joint Legislative Committee on the Budget (JLCB) for its approval or rejection, the Legislative Fiscal Office reviews the submission of the budget for mathematical accuracy and content. In addition, the Legislative Fiscal Office prepares an analysis of the budget submitted by the GNOEC and provides this report to the Joint Legislative Committee on the Budget (JLCB) for its consideration.

Section 2 of Act 875 of 1988 RS requires the Greater New Orleans Expressway Commission (GNOEC) to submit its annual budget to the Joint Legislative Committee on the Budget for its approval or rejection prior to the expenditure of funds contained in such budget. Act 842 of the 2008 RS requires "...consideration of operating budgets shall be given in advance of the beginning of the subject entity's fiscal year." The GNOEC's new fiscal year begins on November 1, 2024; therefore, its annual operating budget is being presented at this time.

**BUDGET SUMMARY**

The Greater New Orleans Expressway Commission (GNOEC) is requesting approval of a FY 25 total budget of \$32.1 M, representing a \$595,000 total increase, or 1.9%, from the budget approved by the JLCB for FY 24. The Commission anticipates a \$465,000 increase in toll revenue in FY 25 over initial FY 24 projections.

## MEANS OF FINANCING

The FY 25 revenue for the GNOEC operating budget totals \$32.1 M and is comprised of the following: toll revenue (79.7%), State Highway Fund No. 2 revenue (19.9%), interest income (0.1%), and other revenue (0.2%). The following discussion will provide additional details on these means of finance.

### Toll Revenue

The proposed toll revenue for FY 25 increases approximately 1.8% from the approved FY 24 budget. Toll revenue is budgeted at \$25.6 M for FY 25, which is \$465,000 over the approved total in FY 24 (\$25.2 M). The total number of one-way crossings on the expressway is anticipated to be 5,598,055 in FY 25, compared to 5,548,000 in FY 24. This is an increase of 50,055 crossings, or 0.9%. The full toll schedule is outlined on page 6, and toll revenue history is discussed on page 7.

The toll revenue is used to pay for the Commission's operating expenses (\$13.3 M), and the excess toll revenue is encumbered to pay for future capital improvement projects and debt services. For FY 25, \$6.1 M will be used to pay the 2017 debt service payment (see page 15). The remaining \$5.6 M will be placed in the Extraordinary Maintenance and Repair Reserve Fund for current and future projects (see pages 16-22).

### State Highway Fund Number 2

State Highway Fund No. 2 revenue is derived from vehicular license taxes collected in Orleans, Jefferson, St. John the Baptist, St. Charles, Tangipahoa, and St. Tammany parishes. This revenue is disbursed as follows: 1) fifty percent (50%) accruing to GNOEC; 2) all monies collected in Orleans Parish from vehicular registration license fees and taxes from trucks and trailers pursuant to LA R.S. 47:462 are deposited into the New Orleans Ferry Fund; 3) after making the allocation for the GNOEC, and the New Orleans Ferry Fund, fifty percent (50%) of monies collected in Jefferson Parish pursuant to R.S. 47:462 are deposited into the Regional Maintenance and Improvement Fund; and 4) the remaining funds are deposited into the Transportation Trust Fund (TTF). Based upon the Revenue Estimating Conference's latest adopted revenue forecast of \$13.9 M for FY 25, the GNOEC's share of revenue is anticipated to total \$6.95 M in State Highway Fund No. 2 dollars for FY 25. The Commission approved a budget of \$6.4 M for FY 25 to align the budget with expected expenditures.

The GNOEC's budgeted revenue (\$6.4 M) from State Highway Fund No. 2 is anticipated to be greater than its debt service payment (for Series 2024 bonds) backed by resources from the fund, which is projected to be \$906,117 in FY 25. As stated in earlier reports, the Legislative Fiscal Office (LFO) previously requested and received an Attorney General opinion on this matter verifying that "surplus" funds from Highway Fund No. 2 are permissible to be utilized by the GNOEC in its budget for expenses of the Huey P. Long (HPL) Bridge and other local agencies, as well as capital improvements. The excess revenue from Highway Fund No. 2 after the annual debt service payment is \$5.5 M (or \$6.4 M minus \$906,117); \$1.9 M will go towards IAT for the HPL Bridge and local agencies, and the remaining surplus of \$3.6 M will be encumbered for acquisitions (\$777,120) and major repairs and capital improvements (\$2.8 M).

### Interest Income

Interest income is projected at \$40,000 for FY 25, an increase of \$5,000 or 14.3% from FY 24. This category consists of monies received from interest on construction investments. Revenue from interest income is deposited into the Extraordinary Maintenance and Repair Reserve Fund. The budgeted amount of \$40,000 aligns the budget with the expected expenditures from the Extraordinary Maintenance and Repair Reserve Fund.

Other Revenue

Other revenue is projected at \$75,000 for FY 25, a decrease of \$25,000, or 25%, from FY 24. This category consists of monies received for copies of police accident and incident reports, plans for projects, records requests, and revenue generated from ATM fees. If the Commission has a surplus auction during the year, revenue generated from the event will go towards other revenue. The decrease in the revenue is largely due to a reduction in the number of auctions to be held in FY 25.

## MEANS OF FINANCING ISSUES

### Toll Rates and Rehabilitation Projects

The GNOEC increased tolls during an August 2016 meeting through a resolution. In addition to increasing tolls in 2017, the resolution set the tolls to automatically increase every seven years thereafter. Proceeds from the increased toll revenue are used to finance a bond issuance, the proceeds of which funded higher safety rails on the southbound span and safety bays on both spans. The first increase became effective on May 1, 2017. The second increase became effective on November 1, 2023. Tables of the 2017 and 2024 toll schedule are below.

Note: The GNOEC began one-way toll collections in May 1999. Tolls have been collected only on the North Shore since that time.

Toll Revenue

Toll revenue is projected at \$25.6 M for FY 25, an increase of \$465,000, or 1.8%, above the \$25.1 M approved in FY 24. This revenue is used to pay for the Commission’s operating expenses of \$13.3 M. The excess toll revenue is encumbered to pay for future capital improvement projects and debt services. In FY 25, \$5.6 M will be placed in the Extraordinary Maintenance and Repair Reserve Fund for current and future projects. The remaining \$6.1 M will be used to pay the 2017 debt service payment.

Toll revenue is budgeted based on historical collections and trends in traffic patterns. The table below illustrates toll revenue collections and traffic counts from FY 04 (pre-Katrina levels) to projected levels in FY 24. The large decrease in FY 20 revenue is a result of decreased traffic due to COVID-19.

#### Salaries

The GNOEC is requesting \$5.3 M for salaries, a 6.6% increase from FY 24. The request includes 89 full-time equivalent employees (FTEs) for FY 25, one more than FY 24. The new position is a Human Resources Assistant to aid the HR Director.

Note: The table above backs out funding equivalent to the administrative and operations functions for the Huey P. Long Bridge.

The Commission approved merit raises for FY 25 salaries. In addition, some salaries were rebased to keep salaries competitive and several employees took on additional duties. The average salary increase across all full-time employees is 4.66%. Salary information for filled positions can be found on pages 23-26.

The GNOEC currently has 30 Peace Officer Standards & Training (POST) certified police officers (24 – Causeway and 6 – Huey P. Long Bridge). Act 664 of 2008 RS provides that these police officers are eligible to receive state supplemental pay, which is currently \$600/month or \$7,200/year for a total state supplement of \$216,000 for all Causeway police officers currently receiving supplemental pay. This portion of the police officers’ salaries is not included in the GNOEC’s budget, as the state pays this amount annually. However, the GNOEC is responsible for paying the related benefits costs associated with the additional \$7,200 state salary supplement, which equates to approximately \$23,940 in additional related benefits expenditures included in the operating budget over and above the base salaries.

Related Benefits:

The Commission is requesting \$2.5 M for related benefits, a 1.3% increase from FY 24, primarily due to an increase in retirement benefits and group insurance benefits.

Other Compensation:

The GNOEC is requesting standstill funding of \$34,180 for Other Compensation in FY 25. Other Compensation represents the salaries of the Greater New Orleans Expressway Commissioners. The five appointed Commissioners are paid \$569.66 per month for Commission duties as provided by an amendment to the Articles of Incorporation of the Greater New Orleans Expressway Commission. The Parishes of Jefferson and St. Tammany executed the Articles of Incorporation on October 20, 1954, with the above amendment being approved on August 7, 1986.

### Operating Services:

The GNOEC is requesting \$4.2 M for operating services, a \$508,000, or 13.9% increase from FY 24. Operating services include advertising, the publication of public notices and minutes, insurance, travel, telephone and radio expenses, utilities, payout of unused vacation and sick leave, dues and subscriptions, trustee fees, bank and visa charges for toll deposits, and other miscellaneous expenses.

### Significant adjustments include:

- \$40,000, or 11.1%, increase in bank/visa charges on toll deposits due to more commuters using credit cards.
- \$450,000, or 16.1%, increase due to an increase in property insurance premiums.
- \$5,000, or 50%, decrease in advertising as the GNOEC will be using an in-house system to send messages to commuters about construction.
- \$25,000, or 50%, increase in unused vacation and sick leave to align the budget with the expected payout for future retirees. There are several employees expected to retire that have large leave balances.

### Supplies Expenses:

The GNOEC is requesting \$1.4 M for supplies expenses, a \$24,530, or 1.8%, increase from FY 24.

Office expenses are estimated to increase by 0.4% from FY 24. Costs include leased office space, disposal services, postage, extermination and termite control, office machine repairs, maintenance contracts, and other general administrative office supplies.

Operating expenses are anticipated to decrease by 0.7% from FY 24. This cost includes gasoline, oil, auto parts, tire lubricants, diesel fuel, police equipment mounted on vehicles, vehicle maintenance, police uniforms, protective equipment, and any other expenditure related to vehicle maintenance and police car retrofitting.

Repairs and maintenance are anticipated to increase by 7% from the prior year, primarily due to the need to purchase new toll tags and attenuator supplies. This category includes costs for general maintenance and supplies needed on the bridge, toll tags, toll system software maintenance, computer and electronic repairs on all bridge equipment, plumbing and janitorial supplies for the entire operation, air conditioning contracts, and other miscellaneous items dealing with operations maintenance. Also included are the components of the crash attenuators used on the bridge, which must be kept in stock and used by maintenance personnel to repair damages throughout the year.

### Other Charges

The GNOEC is requesting \$11.1 M for other charges expenditures, a 0.1% increase from FY 24. Other charges expenditures consist of debt service, interagency expenditures, and policing of the Huey P. Long Bridge.

The GNOEC interagency expenditures are increasing by 10.6% from FY 24, primarily due to an increase in operation costs for the Huey P. Long Bridge (see next page). Interagency expenditures include expenses required by Act 875 of the 1988 RS and Act 1227 of the 1995 RS. These acts provide that, before the transfer of surplus funds to the State of Louisiana, funding will be distributed to the following parishes: \$50,000 to the parishes of Jefferson, Orleans, St. Charles, St. John the Baptist, St. Tammany, Tangipahoa, and Washington for a total of \$350,000.

### *2013 and 2014 Bond Series Refund/2024 Bond Series*

In September 2024, the GNOEC refunded the 2013 and 2014 Series Bonds, saving \$592,202. The new 2024 Series Bond is added to the debt service table on page 15. The time for the bond was not extended; it is still scheduled to end in 2034.

*Note: The Commission approved the proposed budget at its August 14, 2024 meeting. The bond refund executed in September 2024 reduced the expected debt service budget; however, the Commission was not able to approve any changes to the proposed budget before the JLCB meeting. The excess budget authority due to the refund (approximately \$2.2 M) will be used to pay for current and future capital improvement projects.*

### Acquisitions, Major Repairs, and Capital Improvements

The GNOEC is requesting \$7.5 M for acquisitions, major repairs, and capital improvements expenditures, a 3.8% decrease from FY 24.

Acquisitions are increasing by 11.4% from the prior year. For FY 25 significant acquisitions include five new Ford F-150 Police Trucks with the necessary equipment (light bars, cameras, radios, plastic rear seats).

Major repairs and capital improvements expenditures are budgeted at \$6.7 M for FY 25, a decrease of 5.3% over the approved FY 24 budget. These funds are transferred to the Extraordinary Maintenance and Repair Reserve Fund for use in the Commission’s Capital Improvement Program (see next section). The GNOEC is required to have all funds available before the start of any capital improvement project. The Commission accumulates any unexpended funds each year in the Extraordinary Maintenance and Repair Reserve Fund to meet its regular capital outlay and maintenance needs.

### CAPITAL IMPROVEMENT PROGRAM

The Commission is requesting \$29.9 M from the Extraordinary Maintenance and Repair Reserve Fund. These expenditures are not reflected in the operating budget because these funds have been accrued in prior fiscal years.

The fund balance at the start of FY 25 is projected to be \$53.3 M and will receive deposits of \$6.7 M through the FY 25 budget. The \$29.9 M for capital projects in FY 25 will leave a fund balance of \$30.1 M for FY 26. A detailed list of projects and expenditures can be found on the next page.

*Note: The Commission approved the proposed budget at its August 14, 2024 meeting. The bond refund executed in September 2024 reduced the expected debt service budget; however, the Commission was not able to approve any changes to the proposed budget before the JLCB meeting. The excess budget authority due to the refund (approximately \$2.2 M) will be used to pay for current and future capital improvement projects. This could increase expenditures out of the fund by up to \$2.2 M for FY 25, increase the remaining fund balance by \$2.2 M for FY 26, or any combination thereof.*

### Major Repairs

The budget approved by the Commission on August 14, 2024, includes the major repair projects listed below. The projects approved by the GNOEC for a typical fiscal year often are changed during the year due to changing priorities and other factors, which require projects to be altered or rescheduled (either delayed or accelerated). Total costs for the projects outlined below are \$2.3 M.

#### Extraordinary Maintenance & Consulting Engineering - \$500,000

The services provided include monthly and annual reporting, review of driveway and utility permits, inspection of accident site damages, inspection and coordination of repairs to bridge deck and approach roads when necessary, and other engineering services as needed.

#### Annual AASHTO Inspection of Facilities & Security Inspection - \$1,000,000

This is the annual inspection of the Causeway in accordance with the Federal Highway Administration (FHWA) and the American Association of State Highway & Transportation Officials (AASHTO) guidelines. The GNOEC's Trust Indenture requires that the bridge be inspected annually. In addition, the Consulting Engineers conduct monthly inspections of the underside of the bridge and the navigation lights.

#### Emergency and Periodic Repair - \$100,000

This provides funding for issues that may arise throughout the year. For instance, the lock bar has failed the past two years, and in order to fund the repair, money was taken from other project expenditures.

#### Preventative Maintenance - \$700,000

The services provided under this category are associated with improving switches, technology, and electrical items for bridge improvements.

### Capital Improvement Projects

The budget approved by the Commission on August 14, 2024, includes the capital improvement projects listed below. The projects approved by the GNOEC for a typical fiscal year often are changed during the year due to changing priorities and other factors, which require projects to be altered or rescheduled (either delayed or accelerated). Total costs for the projects outlined below are \$27.6 M.

#### North Channel Bascule Mechanical Maintenance - \$420,000

The project provides for maintenance of the mechanical portion of the bascule and other repairs not covered during prior projects. The project will include rehabilitation of the lockbar operators, replacement of a lockbar receiver collar and shimming of all collars, shimming the live load bearings, upgrade of the Uninterruptible Power Supply (UPS) for the control system, installation of a new traffic signal and signage and Programmable Logic Controller (PLC) software modifications.

#### High Voltage Power System - \$1,500,000

The High Voltage Power System provides power at various distribution points along the 24-mile bridge and has been in service since 2002. The system includes 11 switchgears at the utility source connections and distribution points that allow the system to be automatically reconfigured upon loss of utility power from one of the two sources (CLECO and Entergy). This power system relies on a complex control system that communicates on a fiber optic network system. Because of the "daisy chain" configuration, the loss of a single communication device eliminates all communication to the Supervisory Control and Data Acquisition

(SCADA) master station. The proposed upgrades will provide individual communication paths from each of the 11 switchgear control stations to the SCADA master station. In the event of a loss of a single communication device at one of the 11 stations, all other stations will continue to provide data. This allows partial system status to be known until the communication failure can be resolved. The upgrades will also provide additional capabilities for data collection and remote diagnosis of power system issues. The upgrades will improve the reliability of the communications for the power system controls and monitoring.

Upgrade 1700 AM Highway Advisory Radio - \$15,000

The GNOEC maintains a Highway Advisory Radio (HAR) system operating on 1700 AM to inform motorists of conditions on the Lake Ponchartrain Causeway Bridge and approaches. The system transmitters are located on the roof of the administration offices on the south shore, Crossover 4, the North Toll Plaza, and near State Police Troop L on US 190 (north approach). Due to the age of the HAR system, replacement parts are difficult to find and the system has become unreliable. This project will replace components to improve communications with motorists.

Bascule Lockbar Operator Rehabilitation - \$1,500,000

The bascule lockbar operator rehabilitation will replace the lockbar receiver collar, lock collars, pin motors, and brake assemblies.

Bascule Emergency Generator Replacement - \$450,000

The existing emergency generator at the North Channel bascule is approximately 20 years old, and it can no longer be economically repaired. This project will install a replacement 150kW diesel generator with a subbase fuel tank on the bridge deck level of the Southwest Tower at the bascule adjacent to the Southbound Bridge. The fuel tank located on an intermediate level of the Northeast Tower adjacent to the Northbound Bridge will not be removed at this time. The removal will be included in the Bascule Rehabilitation Project when larger construction equipment is scheduled to be on site. The new generator will be sized to run all loads and simultaneously open the bascule spans. As the bascule is not normally opened during the exercising of the generator, the Commission will install a load bank. The load bank will ensure that the exercise is done with the anticipated maximum load, which in turn will help in keeping the generator at its peak performance level. The project will also include modifications to the electrical system to accommodate the generator and traffic control required for the installation.

Bascule Bridge Tender's House Rehabilitation - \$750,000

The Bridge Tenders House at the North Channel Bascule, constructed in 1968, has not been renovated in over 35 years. The purpose of this project is to rehabilitate the existing upper two levels of the tender's house to provide a more comfortable and secure working environment. Items include but are not limited to the following: remove and replace all existing windows at the operator's level, reconfigure one of the tender's windows into an impact-resistant and operable door to allow direct access to the catwalk outside, paint all interior surfaces, remove and replace all finished flooring with new material, remove and replace all furniture, provide better lighting for nighttime operations, reduce ambient noise by installing acoustical absorbent materials, upgrade existing air conditioning units and ventilation, remove and replace stair tread anti-slip strips, recover existing roof surface with new seamless waterproofing membrane, repair access ladder to roof and install new floor safety railings, and patch and repair any structural damage within the scope of work.

North Bascule Roadway Lighting and Gate Replacement - \$1,500,000

The existing roadway lighting at the North Channel Bascule is no longer economical to repair. This project will install new roadway lighting and replace the traffic safety gates that are approximately 20 years old. Traffic Signal Lights will also be added to warn approaching motorists of a bridge opening. The Dynamic Message Sign (DMS) approaching the bascule will be tied into the bascule control system so that notice of a bridge opening will be automatically shown on the DMS to provide advance warning to the motorist.

Electrical and Mobile Generator - \$400,000

This project is to purchase a new mobile generator for use at the six sites where GNOEC has a permanent generator. Modifications to standardize the connection of the mobile generator will be included in this project.

Replace Hazardous Incident Lighting Stations (HILs) - \$750,000

Emergency call boxes are currently located at four-tenth mile intervals along the bridge and at each crossover with HILs attached. In the event of an emergency, the HILS will alert motorists of any disabled vehicles.

Channel Marker Platform Rehabilitation - \$750,000

Marine channel markers are required on all federal waterways including Lake Pontchartrain. Due to age and exposure to weather and marine elements, channel markers approaching Causeway's North and South Channels have deteriorated significantly. The project will identify deteriorating/failing components and equipment and replace/repair them as necessary.

Fender & Electrical Repairs (8 Mile South Channel and 16 Mile North Channel) - \$1,750,000

The existing fender systems at the North and South Channels are over 15 years old and are in need of repair due to age and damage from Hurricane Ida. This project will replace missing and damaged walers and associated hardware on the fenders and repair the catwalks and dolphins. The replacement of the platforms on the channel Marker Lights will also be included in this project.

Bridge Sign Replacement - \$1,750,000

This project provides for the repair and/or replacement of the traffic signs and supports on the Lake Pontchartrain Causeway Bridge that were damaged by Hurricane Ida or that require modification due to age. GNOEC will conduct a test of the retro-reflectivity of the signs to determine if they meet current Manual on Uniform Traffic Control Devices (MUTCD) standards. Any signs not meeting current MUTCD standards will be replaced.

Cable Tray Repairs - \$2,420,520

The Cable Tray that supports the GNOEC Fiber Optic Communications Cable and the 25kV High Voltage Aerial Cable on the Lake Pontchartrain Causeway Bridge was damaged by Hurricane Ida. This project will inspect, repair, and replace sections of the cable tray that have been damaged. Inspection includes minor adjustments to the tray and cable that lies in the tray. This project will be constructed from the lake to minimize the impact to motorists.

Bridge Striping - \$2,000,000

Over the years, roadway striping on entry and exit ends of both the north- and south-bound Causeway bridges has faded/eroded due to around-the-clock traffic. This project will identify and replace entry and exit striping and reflective buttons on both bridges as necessary.

Monroe Street Overpass and Frontage Road Rehabilitation - \$2,000,000

The Monroe Street Overpass and Frontage Road Systems were constructed in the early 1990's and need rehabilitation. Bridge repairs will consist of replacement of expansion joint seals, epoxy repair of cracks in the bent caps and decks, bridge drain restoration, repair of the brick fascia, and replacement of the impact attenuators, signage, and pavement markings. Frontage Road repairs will include removal and replacement of damaged Portland Cement Concrete pavement, replacement of damaged curb, replacement of damaged guard rail, extension of culvers, cleaning of the drainage system and replacement of the striping and pavement markers. Construction will be sequenced or phased to cause minimal interruption to the flow of traffic. The project limits will extend from the north side of the North Toll Plaza to the south side of Florida Street on the North Causeway Approach Road.

Upgrade Traffic Signals - \$1,500,000

EC owns and maintains 6 intersections with traffic signals. This project is to perform upgrades to these traffic signals and includes mass arms, signal heads, controllers, and equipment to improve durability and traffic flow.

North Toll Plaza Canopy Roof and Lightning Protection - \$750,000

This project includes waterproofing the North Toll Plaza canopy roof and providing lightning and surge protection for the North Toll Plaza. The project will be scheduled after the dynamic message sign has been removed and replaced on the truss.

Toll Tag Store Software Upgrade - \$580,000

The Toll Tag software was last updated in 2009. The system currently can only work using Internet Explorer 9, which is no longer supported. The upgrade will include the capability to use multiple browsers, compatibility with the violation system, and equipment upgrades. The upgrade expenses will extend over a four-year period.

Upgrade GNOEC Cyber Security - \$300,000

The GNOEC cyber system will be upgraded. With the multiple hacks in government systems, the GNOEC has decided to upgrade its cyber security systems. The adjustments will be to the firewall, offsite/cloud servers, and additional methods of anti-virus software.

Upgrade Toll System - \$6,000,000

In 2012, the GNOEC installed a new toll system. After ten years, the current system software needs to be updated. This project will upgrade the software, readers, treadles, and other equipment and allow for future interoperability.

Toll Booth Renovations - \$500,000

The toll booth renovations would update the booths. The current booths have not been updated in over 10 years. Some of the upgrades include electrical updates, new air conditioning and heating units, cameras, and computer equipment.

Fiber Install for Equipment Room and Toll Booths - \$60,000

The existing toll system is about 15 years old and approaching end of life. Requests for proposals for a new toll system should be published in the fall of 2024. The additional fiber

will be installed in equipment rooms and five toll booths/lanes to accommodate the new toll system.

In future years, as conditions warrant, the GNOEC intends to replace bearing pads and level the northbound bridge, clean and adjust bearings and level the southbound span, perform structural repairs to the underside of the bridge deck, paint the steel spans, replace or perform maintenance on the radar system, and encapsulate piles. Historically, funds are carried to the next fiscal year as the GNOEC is required by its bond indenture to have all construction funds available before a project can be initiated.

Note: The above information on Major Repairs and Capital Improvements was provided by the GNOEC.

The committee shall make such continuing study and examination of matters pertaining to the budgeting of the state revenues and their expenditures, and the fiscal affairs of the state and its agencies, and shall make quarterly reports and recommendations to the legislature and such other reports as the committee or the legislature deems advisable.

E. The committee shall interpret the legislative intent respecting all fiscal and budgetary matters of the state and conduct general oversight and review of the budget execution processes of the various budget units and other agencies of the state when necessary.

F. The committee shall study, review, and approve or disapprove all transfers of funds from one program specified in the allotments established in each agency's budget to another program. Except as provided in R.S. 39:73 and 87.4, no transfer of funds from one program specified in the allotments in an agency's budget to another shall be made without prior approval of the committee.

G. The committee shall have the full power and authority to adopt rules and regulations prescribing and governing its procedures, policies, meetings, and any and all other activities relating to its functions and duties, including the power and authority to issue binding directives to agencies concerning the proper and efficient execution of their respective budgets as same were approved by the legislature.

H.(1) The committee shall have a litigation subcommittee which shall monitor and study the amounts of state funds required to pay judgments and compromises arising out of lawsuits against the state, its departments, and, with respect to payment of state funds as insurance premiums, the insurers thereof. The committee, by its own rules, motions, or resolutions, shall provide for the size, membership, appointment, all administrative matters, and the delegated powers and duties of the litigation subcommittee.

(2) No attorney representing the state or any of its departments or agencies or any of its employees entitled to indemnification under R.S. 13:5108.1 shall sign any compromise or settlement which obligates the state to pay five hundred thousand dollars or more without prior consultation with the attorney general and the members of the litigation subcommittee. The consultation with the members of the litigation subcommittee shall occur in executive session.

The litigation subcommittee may require that any indemnified state entity or employer of an indemnified employee appear at one or more meetings of the litigation subcommittee to discuss and report on corrective measures or actions.

I. The committee shall have the authority to nullify a penalty applied by the office of risk management relative to a state agency which has failed to receive certification after undergoing a loss prevention audit, as provided in R.S. 39:1536(B).

J. The committee may establish a subcommittee to execute its duties relative to oversight of performance-based budgeting under the Louisiana Government Performance and Accountability Act, as provided in Subpart D of Part II of Chapter 1 of Subtitle I of Title 39 of the Louisiana Revised Statutes of 1950. When the subcommittee acts on behalf of the committee, the chairman of the subcommittee shall provide to each member of the committee a summary report of the subcommittee's action.

K.(1) In the conduct of its responsibility to discharge the constitutional fiscal and budgetary responsibilities of the Louisiana Legislature, the committee shall consider the operating budgets of public entities and salaries of particular public officials which by law require the approval of the committee in accordance with the following:

(a) The committee shall consider operating budgets in advance of the beginning of a subject entity's fiscal year. If the committee finds that the entity has failed to receive the required approval, either by failure to appear or by committee disapproval of its budget, the committee may adopt a resolution to direct the commissioner of administration and the state treasurer to deny any warrant or payment of money from the state treasury for any amount contained within that budget. The committee may also adopt a resolution to direct the commissioner of administration and state treasurer to recommence the acceptance of warrants. If the committee determines that an entity whose operating funds are administered outside of the state treasury has failed to receive the required approval of its budget, either by failure to appear or by committee disapproval of its budget, the committee may adopt a resolution to that effect, and any expenditure of public monies by such entity shall constitute a violation of the provisions of Article VII, Section 14 of the Constitution of Louisiana.

(b) The consideration of salaries of public officials that by law require the approval of the committee shall occur prior to the execution of any employment contract for that official. The state shall not be liable for any payment of such salary if the salary has not been approved by the Joint Legislative Committee on the Budget. The committee shall have the authority to adopt a resolution to direct the commissioner of administration and the state treasurer to deny any warrant or payment of money from the state treasury for any monies related to the payment of the salary at issue. The committee is also authorized to adopt a resolution to direct the commissioner of administration and state treasurer to recommence the acceptance of warrants.

(2) The provisions of this Section shall have no effect on the provisions of any contract which is in effect prior to July 1, 2008.

(3) Notwithstanding any contrary provision of law, the chairman of the Joint Legislative Committee on the Budget may grant an entity, for good cause shown, an extension of time, not to exceed thirty days, to comply with the provisions of this Subsection, and the Joint Legislative Committee on the Budget may grant an additional extension of time.

L.(1)(a) Upon receipt of the reports from the various departments within the executive branch of state government as provided by R.S. 36:8(A)(6) and the public postsecondary education management boards as provided by R.S. 17:3130(C) and 3351(F), the Joint Legislative Committee on the Budget shall transmit the reports to the legislative fiscal office for review and analysis and may conduct hearings to review the reports.

(b) The legislative fiscal office shall review the reports and perform any additional analysis of the reports that is necessary to provide an accurate actual estimate as compared to the fiscal note as the bill was enacted.

(2) The reports required to be submitted under this Section shall be in a manner as prescribed by the chairman of the Joint Legislative Committee on the Budget and shall be accompanied by such other information as the chairman may require. At a minimum, the report shall present the differences between the original estimate as the bill was enacted and the actual current revenues or expenditures. Depending upon the scope of the original legislation, the comparisons between the fiscal note as the bill was enacted and the actual amounts shall include but not be limited to tax increases, decreases, fee increases and repeals, tax exemptions, suspensions, credits, rebates, exclusions, and deductions, among others.

(3) No later than February first of each year, the committee shall report its findings in a public meeting relative to any legislation that has been enacted that affects state revenues, public postsecondary education management boards and the related institutions or the various departments and the related entities and that legislation has a fiscal impact which has increased by the amount of one million dollars or more over the amount of the fiscal note as the bill was enacted. The review and analysis shall also examine the receipt, expenditure, allocation, dedication, or means of financing to determine specifically how the increases impact state revenue, the departments, agencies, boards, commissions, and like entities within the executive branch of state government, as well as among the public postsecondary education institutions of the state. The Joint Legislative Committee on the Budget shall transmit copies of the final report to the governor, the president of the Senate, and the speaker of the House of Representatives, and distribute a copy to each member of the legislature.

M.(1) All economic and financial reports for projects submitted in conjunction with the request for approval of the Joint Legislative Committee on the Budget in excess of a total state commitment of ten million dollars for the term of the project shall provide the following information:

(a) Inclusion of all input information, data, and assumptions, including but not limited to data sources, economic growth assumptions, and an assessment/basis of the reasonableness of each.

(b) A description of the analytical model employed for the report and how each input was utilized with that model.

(c) Results in terms of value-added, household earnings, and employment, and a description of each concept.

(d) Results by industry sector, with an assessment of possible adverse effects on sectors that compete with the subsidized company for in-state customers.

(e) Explicit identification of the project's effect on direct expenditure requirements in the state budget or any reduction in taxes or state revenues, including but not limited to tax exemptions, exclusions, deductions, reductions, repeals, rebates, incentives, abatements, or credits.

(f) An additional assessment by the secretary of the Department of Economic Development regarding the extent to which the project would not have occurred but for the proposed state financial support. The secretary's assessment shall reference other business factors which contributed to the project activity occurring and factors which will be required for ongoing sustainability including but not limited to labor, transportation, energy, among others.

(g) Cost/benefit comparisons of the incentives in the package compared to the costs in the package shall be for the same period of time or the same term, both for the direct benefits to the state as well as the indirect benefits to the state.

(2)(a) The department shall submit the request for Joint Legislative Committee on the Budget approval of the project with the analysis to the committee for its review at least seventeen business days, or as permitted by the chairman, prior to the meeting for which the department is seeking the committee's approval. In the event that the chairman specifies a request submission period that is less than seventeen business days, the chairman shall notify all members of the committee of the revised submission time period. Presentation of the information required shall be in a format developed by the department in consultation with the Legislative Fiscal Office and the Joint Legislative Committee on the Budget.

(b) Upon receipt of the request, the Joint Legislative Committee on the Budget shall transmit the report to the legislative fiscal office for evaluation of the department's assessment and the legislative fiscal office shall make such information available to the committee during its review.

(3) For the purposes of this Section and notwithstanding any other provision of law to the contrary, "project" shall mean any public-private partnership, agreement with a nonpublic party, lease, cooperative endeavor agreement, memorandum of understanding, or other contractual agreement which would result in or is expected to result in the obligation of state resources or the expenditure of revenues from the operation, management, or control of a state resource for the purposes of engendering economic growth or development in the state through the utilization of certain incentives, including but not limited to tax exemptions, exclusions, deductions, reductions, repeals, rebates, incentives, abatements, or credits.

N.(1) The committee shall have a dedicated fund review subcommittee which shall review and make recommendations on special funds in the state treasury that dedicate state revenue.

(2) The committee, by its own rules, motions, or resolutions, shall provide for the size, membership, appointment, all administrative matters, and the delegated powers and duties of the dedicated fund review subcommittee. The committee shall provide that the membership of the subcommittee is bipartisan and diverse.

(3) No later than September 1, 2017, and every two years thereafter, the committee shall provide for the dedicated fund review subcommittee.

(4) The dedicated fund review subcommittee shall conduct the review of special funds and submit recommendations to the committee as required in R.S. 49:308.5.

### *PBM Services Emergency Contract Overview*

#### Background Information

- OGB's PBM Services contract with CVS Caremark became effective January 1, 2023 with a December 31, 2025 term date, unless extended per the available 24 months renewable option. It contains a termination for convenience provision that allows OGB to terminate the contract prior to December 1, 2025.
- HB 172/Act 546 of the 2024 Regular Legislative Session: among its various provisions, the legislation requires each PBM contract entered into with OGB to clearly establish an administrative fee (or administrative fee calculation) to be retained by the Contractor. Additionally, it prohibits such PBMs from retaining revenues (including revenues from rebates and fee arrangements with third parties) directly attributable to their contract with OGB outside of the established administrative fee.

## ATTACHMENT II: PRICING

### 1. General Pricing Information

- The financial terms described in this Attachment II will be effective January 1, 2025.
- For Mail Order, Specialty, and Other Pharmacy Claims, the participating pharmacy will collect from the Plan Participant the lowest of the discounted cost plus dispensing fee and applicable taxes, applicable cost share, or the participating pharmacy's Usual and Customary price.
- Proposed pricing shall not be contingent upon the adoption of any ancillary services (i.e., clinical programs, utilization management programs, plan design changes, etc.) beyond what is currently in place today.
- OGB will receive the greater of the aggregate Minimum Rebate Guarantees or 100% of Rebates. PBM will pay Minimum Rebate Guarantees on a quarterly basis no later than ninety (90) days following each calendar quarter, as well as Rebates received by PBM during the prior calendar quarter. Minimum Rebate Guarantees are paid on a quarterly basis by channel using the following formula for each dispensing channel independently, then summed: the calculation of the Minimum Rebate Guarantee will be the Rebate Guarantee multiplied by (the total Brand Drug Claim count minus the Claims subject to exclusions as identified in this Contract), and reconciled annually in the aggregate. A walkdown of the various excluded claims will be required to account for all rebate-eligible claims. All claims, including those excluded from financial guarantees, will be included in the reconciliation review. In the event that the PBM utilizes an intermediary/third party/group purchasing organization to determine rebates for OGB, OGB will have the right to audit that intermediary/third party/group purchasing organization directly.
- Commercial Rebate guarantees are conditioned upon alignment with CVS Caremark Performance Drug List – Standard Control and alignment with CVS Caremark Advanced Control Specialty Formulary. OGB's decisions to provide pharmaceuticals to plan participants on a case-by-case basis in response to appeals will not cause OGB to be out of alignment with CVS Caremark Performance Drug List – Standard Control or CVS Caremark Advanced Control Specialty Formulary.
- EGWP Rebate guarantees are conditioned upon alignment with SilverScript Platinum Formulary with Closed Wrap Enhanced Benefit (which may be referred to as Other Health Insurance or "OHI" in communications). OGB's decisions to provide pharmaceuticals to plan participants on a case-by-case basis in response to appeals will not cause OGB to be out of alignment with SilverScript Platinum Formulary with Closed Wrap Enhanced Benefit (which may be referred to as Other Health Insurance or "OHI" in communications).
- PBM shall render payment to OGB for all outstanding collected Rebates within one hundred twenty (120) days after termination of the Contract and any subsequent Rebates received after termination of the Emergency Contract. In addition, all discount and dispensing fee guarantees will be trued up and any shortfalls will be paid to OGB within one hundred twenty (120) days after said termination.
- In addition, reconciliation of all discount and dispensing fee guarantees will be made to OGB within ninety (90) days from the close of each Measurement Period, as described in Section 21.0 Financial Guarantees. Any billing formula and all related financial guarantees stated herein will be based on the AWP and associated discount on the date of service of each individual prescription Claim for Mail Order, Specialty, and Other Pharmacy Claims.

Discount guarantees shall be reconciled by comparing the stated guarantee amount for the applicable category of Claims across all claims (excluding Claims excluded from the applicable guarantee), with the aggregate discount off of AWP for actual Claims paid by OGB in that discount guarantee category (excluding Claims that are excluded from the applicable guarantee). OGB will be paid dollar-for-dollar to the extent the discount for those actual, non-excluded Claims was less than the stated guarantee amount across all non-excluded Claims. Dispensing fee guarantees shall be reconciled by comparing the stated per-Claim guaranteed dispensing fee multiplied by the total number of Claims in the applicable category of Claims that are not excluded from the applicable guarantee, with the aggregate amount of dispensing fees paid by OGB for actual Claims in that category (excluding Claims that are excluded from the applicable guarantee). OGB will be paid dollar-for-dollar to the extent the total dispensing fees paid for those actual, non-excluded Claims exceeded the guaranteed amount multiplied by the number of non-excluded Claims. For discount purposes and other related contract calculations, Single-Source Generics should be considered as Multi-source generics and must not be considered Brands for the purpose of pricing or guarantee reconciliation.

- MAC, if applicable, is managed to achieve pricing guarantees within each component while maintaining a MAC unit price at mail that is equal to or lower than the MAC unit price at retail.
- All billing discounts and related guarantees will be calculated using only the billing formula used to process the Claim. No other monies (i.e. audit savings, clinical savings, therapeutic interchange savings, DUR savings, etc.) will be included in the reconciliation of any billed amounts, guarantees or otherwise.
- Rebate guarantees will **not** be conditioned on the average days of supply performance during the Contract term. The Contractor cannot pro-rate rebate guarantees based on the achieved utilization performance, nor set a floor days of supply performance amount that needs to be achieved to be eligible for the rebate guarantees.
- For purposes of the Federal Anti-Kickback Statute, Manufacturer Payments paid to OGB and any other OGB credits provided under this Emergency Contract shall constitute and shall be treated as discounts against the price of drugs within the meaning of 42 U.S.C. 1320a 7b(b)(3)(A).
- For compound drug Claims, PBM applies the NCPDP D.0 standard. For each compound drug Claim, the submitting pharmacy shall provide the following: (a) compound indicator; (b) eleven-digit NDC, quantity, and submitted ingredient cost for each component in the recipe; (c) total quantity and total Usual & Customary price; and (d) level of effort value. PBM shall determine the appropriate ingredient cost, or NDC, for each component using the lower of (1) the AWP discount; (2) MAC; or (3) the submitted ingredient cost. The level of effort charge will be applied in addition to the appropriate dispensing fee.
- For the EGWP Wrap Enhanced benefit, Claims will be included in EGWP pricing discount and dispensing fee guarantees. Claims processed by Contractor under the EGWP Wrap Enhanced Benefit shall not be eligible for Rebate guarantees; however, any Rebates collected by Contractor for such Claims will be passed to the Client in accordance with the Rebate terms described herein. The Wrap Enhanced benefit is a PBM service administered outside of the SilverScript Insurance Company Prescription Drug Program (PDP) by Contractor.

**2.5 Credits and Allowances**

This Section sets forth various credits to be paid or credited by PBM to OGB (collectively “OGB Credits”). It is the intention of the parties that, for purposes of the Federal Anti-Kickback Statute, these OGB Credits shall constitute and shall be treated as discounts against the price of drugs within the meaning of 42 U.S.C. 1320a 7b(b)(3)(A). In addition, OGB acknowledges and agrees that, as a condition to its right to receive OGB Credits from PBM, all OGB Credits received shall be used exclusively for providing benefits to Plan Participants and defraying the reasonable expense of administering the Plan.

PBM agrees to provide OGB an annual commercial administrative fund credit of [REDACTED] per Plan Participant per year and an annual EGWP administration fund credit of [REDACTED] per Plan Participant per year which will be available during the term of the contract as provided in **Attachment I: Scope of Work/Services**.

This administrative credits may be used to offset certain expenses incurred by OGB in the implementation and administration of OGB’s prescription benefit plan or the services provided by PBM during the term. The credit, for example, may be applied to offset communication expenses, Member I.D. cards, postage, special programming charges, fees and expenses from OGB-engaged consultants associated with projects related to pharmacy benefits or specialty drug medical benefit management, fees and expenses for third party ongoing reviews/audits or any other consulting services or applied to clinical programs offered by PBM. OGB will be requested to provide reasonable documentation of expenses incurred that are to be applied to this credit. Alternatively, OGB may elect to have this credit applied to its monthly invoices on a prorated basis.

Notwithstanding the credits provided above, for pre and/or post-implementation audits, PBM shall provide OGB with a one-time credit of up to [REDACTED]. Additionally, PBM shall provide OGB with an annual audit credit (inclusive of rebate audit and prior authorization retrospective review) of up to [REDACTED] per year for commercial and [REDACTED] per year for EGWP. This annual credit

provided to OGB can be applied to offset costs incurred by OGB in the administration of an audit pursuant to the terms of the Agreement. This audit credit will be credited to OGB's monthly invoices. Identification of the expenses attributable to this audit credit shall be mutually agreed upon. OGB shall provide PBM with documentation of expenses actually incurred in the form of an invoice, an account statement, or other detailed documentation. Expenses applied to this credit will not exceed fair market value of such expenses.

## **2.6. General Pricing Terms and Conditions**

The financial provisions in this Emergency Contract are based upon information provided by OGB (or OGB's authorized representative) during the pricing request process. Subject to written notice to OGB within 30 days and upon written agreement between OGB and CVS Caremark, Attachment II:

Pricing may be modified or amended in a manner narrowly tailored to account for the impact of events identified below. Such written notice will include CVS Caremark's explanation of the manner in which the modification accounts for the impact of the event. Such modifications will require an amendment to this Contract.

1. OGB-initiated change to pharmacy benefit program, plan design, or formulary alignment (provided, however, a full replacement Consumer Driven Health Plan (CDHP) will not, in and of itself, trigger any pricing adjustment), but only to the extent that the change impacts the underlying economics of the Agreement;

2. Product offering decisions by drug manufacturers that result in a reduction of Rebates, including the introduction of biosimilars or a lower cost alternative product which may replace an existing rebatable brand product; an unexpected launch of a generic product ahead of the anticipated generic date; or a branded product converted to OTC status, recalled or withdrawn from the market. CVS Caremark will conduct an analysis based upon State-specific claims, utilization, and membership data demonstrating how the change results in the proposed modification. CVS Caremark will provide documentation of the reason for the proposed modification in addition to a summary analysis demonstrating the modification is solely related to the impact of the specific event. CVS Caremark will disclose all necessary facts and data to OGB and OGB's third party consultant for validation;

or

3. Any government imposed change, including changes in CMS guidelines for government regulated programs, if applicable, which materially impacts the current economics of the pricing or the rebating process with pharmaceutical manufacturers and has a material adverse impact on pricing or Rebates.

**ATTACHMENT III: BUSINESS ASSOCIATE ADDENDUM**

State of Louisiana, Office of Group Benefits  
HIPAA Business Associate Addendum

THIS HIPAA BUSINESS ASSOCIATE ADDENDUM (the “Addendum”) is entered into effective the 1st day of January, 2025 (the “Effective Date”), by and between CaremarkPCS Health, L.L.C. Such resulting de-identified information would not be subject to the terms of this Addendum.

(e) Business Associate may create a Limited Data Set, as defined in HIPAA, and use such Limited Data Set pursuant to a Data Use Agreement that meets the requirements of HIPAA, provided Covered Entity agrees to such creation and use of a Limited Data Set.

(f) Business Associate may use and disclose PHI to respond to requests for PHI either accompanied by an authorization that meets the requirements of 45 CFR 164.508 or from a covered entity or health care provider in accordance with 45 CFR 164.506(c); or to report violations of law to federal and state agencies consistent with 45 CFR 164.502(j)(1). On a quarterly basis and at any time requested by Covered Entity, Business Associate will submit written notice of use and disclosure of PHI to Covered Entity when responding to requests pursuant to Section 3(f) of this Agreement.

4. Required Safeguards to Protect PHI. Business Associate shall implement appropriate safeguards in accordance with HIPAA to prevent the use or disclosure of PHI other than pursuant to the terms and conditions of the Agreement. To the extent that Business Associate creates, receives, maintains, or transmits electronic PHI (“ePHI”) on behalf of Covered Entity, Business Associate shall comply with the HIPAA Security Rule as of the relevant effective date and further, shall implement Administrative, Physical, and Technical Safeguards that reasonably and appropriately protect the confidentiality, integrity and availability of the ePHI.

5. Reporting to Covered Entity. As soon as reasonably practicable (but not more than forty-eight (48) hours), Business Associate shall report to Covered Entity any use or disclosure of PHI not provided for by this Agreement, including breaches of unsecured PHI in accordance with the Breach Notification Rule (45 CFR Subpart D), and any Security Event of which it becomes aware that may constitute a breach of unsecured PHI. Business Associate shall cooperate with Covered Entity’s investigation, analysis, notification, and mitigation activities, and shall be responsible for all costs incurred by Covered Entity for those activities. Business Associate shall conduct a breach

risk assessment to ascertain the probability that PHI has been compromised within twenty (20) calendar days of when Business Associate (or its subcontractor) knew or should have known of the use or disclosure of PHI not provided for by this Agreement. Business Associate shall provide the breach risk assessment to Covered Entity within twenty (20) calendar days of when Business Associate (or its subcontractor) knew or should have known of the use or disclosure of PHI not provided for by this Agreement. Security Event is defined in the OTS Information Security Policy as an observable event, or collection of events, that may indicate a potential incident and shall be reviewed or investigated and may or may not be required for promotion to an Incident. [Information Security - Louisiana Division of Administration \(la.gov\)](#).

6. Notifications and Reporting to HHS. Following a breach of unsecured PHI, Business Associate shall send the required notifications to Plan Participants, news media outlets, and the Secretary as required by HIPAA. Business Associate shall consult with Covered Entity prior to publishing a notification in a prominent media outlet and provide Covered Entity with a copy of the final publication within (1) business day of publication. Business Associate shall provide Covered Entity with copies of notifications sent to Plan Participants within five (5) business days of sending the notification(s). Business Associate shall provide Covered Entity with copies of notifications submitted to the Secretary within three (3) business days of submission.

7. Mitigation of Harmful Effects. Business Associate agrees to mitigate, to the extent practicable, any harmful effect of a use or disclosure of PHI by Business Associate in violation of the requirements of this Addendum, including, but not limited to, compliance with any state law or contractual data breach requirements.

8. Agreements with Third Parties. Business Associate understands and agrees that any agent or subcontractor that may create, receive, maintain or transmit PHI on behalf of Business Associate must comply with all applicable laws and regulations as are applicable to Covered Entity in regard to PHI. Business Associate shall enter into a written agreement with any agent or subcontractor of Business Associate that will create, receive, maintain, or transmit PHI on behalf of Business Associate. Pursuant to such agreement, the agent or subcontractor shall agree to be bound by the same restrictions, terms, and conditions that apply to Business Associate under this Addendum with respect to such PHI. Such agreements with Business Associates agents and subcontractors shall be provided to Covered Entity upon request and subject to audit hereunder.

9. Access to Information. Within ten (10) days of a request by Covered Entity for access to PHI about an individual contained in a Designated Record Set, Business Associate shall make available to Covered Entity such PHI for so long as such information is maintained by Business Associate in the Designated Record Set, as required by 45 CFR 164.524. In the event any individual delivers directly to Business Associate a request for access to PHI, Business Associate shall within five (5) days forward such request to Covered Entity.

10. Availability of PHI for Amendment. Within ten (10) days of receipt of a request from Covered Entity for the amendment of an individual's PHI or a record regarding an individual contained in

a Designated Record Set (for so long as the PHI is maintained in the Designated Record Set), Business Associate shall provide such information to Covered Entity for amendment and incorporate any such amendments in the PHI as required by 45 CFR 164.526.

11. Documentation of Disclosures. Business Associate agrees to document disclosures of PHI and information related to such disclosures as would be required for Covered Entity to respond to a request by an individual for an accounting of disclosures of PHI in accordance with 45 CFR 164.528. At a minimum, Business Associate shall provide Covered Entity with the following information: (i) the date of the disclosure; (ii) the name of the entity or person who received the PHI, and if known, the address of such entity or person; (iii) a brief description of the PHI disclosed; and (iv) a brief statement of the purpose of such disclosure which includes an explanation of the basis for such disclosure.

12. Accounting of Disclosures. Within ten (10) days of notice by Covered Entity to Business Associate that it has received a request for an accounting of disclosures of PHI regarding an individual, Business Associate shall make available to Covered Entity information collected in accordance with Section 10 of this Addendum, to permit Covered Entity to respond to the request for an accounting of disclosures of PHI in accordance with 45 CFR 164.528. In the event the request for an accounting is delivered directly to Business Associate, Business Associate shall within five (5) days forward such request to Covered Entity. Business Associate hereby agrees to implement an appropriate record keeping process to enable it to comply with the requirements of this Section.

13. Other Obligations. To the extent that Business Associate is to carry out Covered Entity's obligation under HIPAA, Business Associate shall comply with the requirements of HIPAA that apply to the Covered Entity in the performance of such obligation. Such obligations include but are not limited to Covered Entity's obligations to provide breach notifications.

14. Availability of Books and Records. Business Associate hereby agrees to make its internal practices, books, and records relating to the use and disclosure of PHI received from, or created or received by Business Associate on behalf of, Covered Entity available to Covered Entity and to the Secretary for purposes of determining Covered Entity's compliance with HIPAA for the term of this Agreement and for six years following the final payment under the Agreement.

15. Effect of Termination of Agreement. Upon the termination of the Agreement or this Addendum for any reason, Business Associate shall return to Covered Entity, at its expense and within sixty (60) days of the termination, all PHI owned by or belonging to Covered Entity as provided in the Agreement, and shall retain no copies of the PHI unless required by law. In the event that the law requires Business Associate to retain copies of PHI, Business Associate shall extend the protections of this Addendum to such PHI and limit further uses and disclosures of such PHI to those purposes required by law, for so long as Business Associate maintains such PHI. This provision includes, but is not limited to, PHI: (a) received from Covered Entity; (b) created or received by Business Associate on behalf of Covered Entity; and, (c) in the possession of

subcontractors or agents of Business Associate. This provision includes PHI in any form, recorded on any medium, or stored in any storage system. In addition, the Business Associate shall return any books, records, or other documents required by the Agreement.

16. Breach of Contract by Business Associate. In addition to any other rights Covered Entity may have in the Agreement, this Addendum or by operation of law or in equity, Covered Entity may (i) immediately terminate the Agreement if Covered Entity determines that Business Associate has violated a material term of this Addendum, or (ii) at Covered Entity's option, permit Business Associate to cure or end any such violation within the time specified by Covered Entity. Covered Entity's exercise of its option to permit Business Associate to cure a breach of this Addendum shall not be construed as a waiver of any other rights Covered Entity has in the Agreement, this Addendum or by operation of law or in equity.

17. Indemnification. Business Associate shall defend, indemnify and hold harmless Covered Entity and its officers, trustees, employees, subcontractors and agents from and against any and all claims, penalties, fines, costs, liabilities or damages, including but not limited to reasonable attorney fees, incurred by Covered Entity arising from a violation by Business Associate or its subcontractors of Business Associate's obligations under this Addendum or HIPAA. This Section 17 of the Addendum shall survive the termination of the Agreement or this Addendum.

18. Exclusion from Limitation of Liability. To the extent that Business Associate has limited its liability under the terms of the Agreement, whether with a maximum recovery for direct damages or a disclaimer against any consequential, indirect or punitive damages, or other such limitations, all limitations shall exclude any damages to Covered Entity arising from Business Associate's breach of its obligations relating to the use and disclosure of PHI. This Section 18 of the Addendum shall survive the termination of the Agreement and this Addendum.

19. Injunctive Relief. Business Associate acknowledges and stipulates that the unauthorized use or disclosure of PHI by Business Associate or its subcontractors while performing services pursuant to the Agreement or this Addendum would cause irreparable harm to Covered Entity, and in such event, Covered Entity shall be entitled, if it so elects, to institute and prosecute proceedings in any court of competent jurisdiction, either in law or in equity, to obtain damages and injunctive relief, together with the right to recover from Business Associate costs, including reasonable attorneys' fees, for any such breach of the terms and conditions of the Agreement or this Addendum.

20. Third Party Rights. The terms of this Addendum are not intended, nor should they be construed, to grant any rights to any parties other than Business Associate and Covered Entity.

21. Owner of PHI. Under no circumstances shall Business Associate be deemed in any respect to be the owner of any PHI used or disclosed by or to Business Associate pursuant to the terms of the Agreement.

22. *Changes in the Law.* Covered Entity may amend either the Agreement or this Addendum, as appropriate, to conform to any new or revised federal or state legislation, rules, regulations, and records retention policies to which Covered Entity is subject now or in the future including, without limitation, HIPAA.

23. *Judicial and Administrative Proceedings.* In the event Business Associate receives a subpoena, court, or administrative order, or other discovery request or mandate for release of PHI, other than a standard medical records request/medical records subpoena, Business Associate shall notify Covered Entity of such within five business days by providing a copy of such and any applicable comments. Covered Entity shall have the right to control Business Associate's response to such request.

24. *Conflicts.* If there is any direct conflict between the Agreement and this Addendum, the terms and conditions of this Addendum shall control.

IN WITNESS WHEREOF, the parties have executed this Addendum effective the day and year first above written.
